

**TO THE COUNCIL OF THE
CITY OF LOS ANGELES**

Your

ENERGY AND ENVIRONMENT COMMITTEE

reports as follows:

ENERGY AND ENVIRONMENT COMMITTEE REPORT and RESOLUTION relative to the City's position on the Nuclear Regulatory Commission making no decision about restarting the San Onofre Nuclear Power Plant until all actions are performed as necessary to protect public safety.

Recommendation for Council action, as initiated by Resolution (Koretz – Rosendahl), SUBJECT TO THE CONCURRENCE OF THE MAYOR:

ADOPT the accompanying RESOLUTION, as amended, for the City of Los Angeles to include in its 2013-2014 Federal Legislative Program SUPPORT for the action by the Nuclear Regulatory Commission to make no decision about restarting either San Onofre unit until it has fully reviewed public safety through a prudent, transparent, and precautionary process, has allowed independent experts and the public ample opportunity to comment, and has confirmed that Southern California Edison has completed any resulting mandated repairs, replacements, or other actions necessary to guarantee both short and long-term safe operation of San Onofre. Furthermore, the City encourages the Nuclear Regulatory Commission to take the time needed to independently determine whether or not the information, analysis and actions provided by Southern California Edison constitute a solid technical basis for the adequate protection of the public and resumption of operations.

Fiscal Impact Statement: None submitted by the Chief Legislative Analyst. The City Administrative Officer has not completed a financial analysis of this report.

Community Impact Statement: None submitted.

Summary:

On March 6, 2013, the Energy and Environment Committee considered Resolution (Koretz – Rosendahl) relative to the City's position on the Nuclear Regulatory Commission making no decision about restarting the San Onofre Nuclear Power Plant until all actions are performed as necessary to protect public safety.

After circulating amendments to the resolution, which include corrections to the whereas clauses, and after providing an opportunity for public comment, the Committee moved to adopt the amended Resolution for the City, to include in its 2013-2014 Federal Legislative Program support for the action by the Nuclear Regulatory Commission to make no decision about restarting either San Onofre unit until it has fully reviewed public safety through a prudent, transparent, and precautionary process, has allowed independent experts and the public ample opportunity to comment, and has confirmed that Southern California Edison has completed any resulting mandated repairs, replacements, or other actions necessary to guarantee both short- and long-term safe operation of San Onofre. Furthermore, the City encourages the Nuclear Regulatory Commission to take the time needed to independently determine whether or not the information, analysis and actions provided by Southern California Edison constitute a solid technical basis for the adequate protection of the public and resumption of operations.

This matter is now submitted to Council for its consideration.

Respectfully submitted,

ENERGY AND ENVIRONMENT COMMITTEE
