SUMMARY

In a report to the Board of Police Commissioners dated September 27, 2013 (attached to the Council file), LAPD requests authority to accept a donation of funding for a study on DUI patterns. LAPD reports that the study will analyze the thesis question, "Are DUI arrestees with prior violent criminal history more likely than other DUI arrestees to cause death or injury in future motor vehicle crashes?" The study's findings will impact current policies by recommending either more or less aggressive criminal filing depending on the arrestee's prior history. On October 8, 2013, the Board approved LAPD's request.

At its meeting held November 8, 2013, the Public Safety Committee recommended that Council authorize LAPD to accept this donation and thank the donor for this generous gift.

Respectfully Submitted,

PUBLIC SAFETY COMMITTEE
