LETTER OF DETERMINATION

MAILING DATE: MAR 29 2019

Case No. CPC-2008-3470-SP-GPA-ZC-SUD-BL-M3

Council District: 3 – Blumenfield

CEQA: ENV-2008-3471-EIR, SCH No. 1990011055

Plan Area: Canoga Park-Winnetka-Woodland Hills-West Hills

Project Site: Warner Center 2035 Specific Plan

Applicant: City of Los Angeles

At its meeting of **February 28, 2019**, the Los Angeles City Planning Commission took the actions below in conjunction with the approval of the following:

Amendment to the Warner Center 2035 Specific (Plan) to update and clarify the way mobility fees, pursuant to Section 7 of the Plan, are assessed and calculated, with amendments to Sections 4, 5, and 7, and Appendices D and E of the Plan.

1. **Find**, based on the independent judgement of the Commission, after consideration of the whole of the administrative record, that the project was assessed in the previously certified Environmental Impact Report No. ENV-2008-3471-EIR (SCH No. 1990011055), certified on April 24, 2013, and pursuant to State CEQA Guidelines Sections 15162 and 15164, no major revisions are required to the EIR and no subsequent EIR is required for approval of the project;
2. **Approved and recommended** that the City Council **adopt** the proposed ordinance, as amended per Staff's Technical Modification dated February 26, 2019, provided that the City Attorney review the ordinance as to form and legality; and
3. **Adopted** the attached Findings.

The vote proceeded as follows:

Moved: Khorsand

Seconded: Ambroz

Ayes: Mack, Millman, Mitchell

Nays: Perlman

Absent: Choe, Padilla-Campos

Vote: 5 – 1

James K. Williams, Commission Executive Assistant II
Los Angeles City Planning Commission

Effective/Appeals Date:

The decision of the City Planning Commission is not appealable.

If you seek judicial review of any decision of the City pursuant to California Code of Civil Procedure Section 1094.5, the petition for writ of mandate pursuant to that section must be filed no later than the 90th day following the date on which the City's decision became final pursuant to California Code of Civil Procedure Section 1094.6. There may be other time limits which also affect your ability to seek judicial review.

Jonathan Hershey, Senior City Planner

ORDINANCE NO. _____

An Ordinance amending portions of the Warner Center 2035 Plan, Ordinance No. 182,766, to clarify how Mobility Fees and In-Lieu Credits for Mitigation Measures are calculated and applied to projects within the Warner Center 2035 Plan area.

Section 1. Section 4 of the Warner Center 2035 Plan is modified as follows:

GROSS LEASABLE FLOOR AREA. The total floor area designed for tenant occupancy and exclusive use, including any basements, mezzanines, or upper floors, expressed in square feet and measured from the centerline of joint partitions and from outside wall faces. Gross Leasable Floor Area is the area for which tenants pay rent; it is the area that produces income for the property owner.

MOBILITY FEE. The money a Project applicant is required to pay to the Warner Center Mobility Trust Fund, the amount of which is based on trip generation of building floor area (as defined by Building and Safety) ~~or residential units and floor area ratio~~, pursuant to the terms of this Plan (see Section 7 and **Appendixes D and E**).

MOBILITY MITIGATION MEASURES. Physical street improvements for vehicular traffic, transit improvements and/or TDM measures that would reduce significant transportation impacts to the extent physically feasible, as determined by the Department of Transportation (see Section 7 and Appendixes D and E).

Sec. 2. Section 5.3.3.1.3 of the Warner Center 2035 Plan is modified to read as follows:

5.3.3.1.3 City's Department of Transportation (DOT) Review of the Phasing Plan.

Prior to the Director's approval of the Phasing Plan, the DOT shall: (i) review the proposed Phasing Plan; (ii) identify the transportation/mobility mitigation to be undertaken by the Project applicant for the initial Project phase; (iii) determine and approve any applicable in-lieu credits, towards the payment of the Mobility Fee pursuant to Section 7 of this Plan, available to the Project; (iv) determine that the proposed Transportation Demand Management (TDM) program goals are in conformance with the provisions of this Plan; (v) calculate the Mobility Fee for the initial Project phase based on Land Use categories in Appendix D Table 1 and the FAR floor area of the building permits for that phase of the project plus any existing buildings within the project site proposed for demolition during that phase; ~~and (vi) acknowledge that the later phases of a Master Planned and/or Multi-Phased Project shall be provided credit~~

~~towards the Mobility Fees paid in previous phases to the extent that the total paid shall not exceed the Mobility Fees as calculated for the project in total. If an applicant subsequently submits a modification to the Project, which modification that results in a change in density, land use or floor area from an approved Phasing Program, appropriate adjustments in fees, traffic impact mitigation, street dedication, widening and improvement requirements, and/or TDM requirements applicable to the change shall be made as a condition of DOT's approval of such a modification.~~

Sec. 3. Section 7.3 of the Warner Center 2035 Plan is modified to read as follows:

7.3 Mobility Fee.

Mobility Fees shall be collected from Project applicants, prior to issuance of a building permit, and deposited into a special Warner Center Mobility Trust Fund for the implementation of Transportation Mitigation Plans (TMP) and other mobility measures and improvements identified by the Plan.

Sec. 4. Section 7.3.1 of the Warner Center 2035 Plan is modified to read as follows:

7.3.1 Mobility Fee Calculation and Mitigation Measures.

Mobility Fee shall be calculated and mitigation measures shall be determined based on a Project's land uses and size floor area, as calculated by the ~~Department of City Planning and the Department of Building and Safety~~ based on the building code, in consultation with DOT and the Department of City Planning, using the Mobility Fee Table set forth in **Appendix D** of this Plan. The Mobility Fee rate shall be based upon those rates in effect at the time of building permit issuance; however, those projects or project phases that have submitted an application for discretionary approval to the Department of City Planning which is deemed complete prior to [the effective date of this ordinance], shall be subject to the annually adjusted fee rates in effect at the time the application was deemed complete. The Department of City Planning, in consultation with DOT, shall have discretion in determining which lots constitute the project site specifically for the purpose of calculating a Mobility Fee. ~~The Mobility Fee funds the six components of the TMP including Roadway Improvements, New Orange Line Station Terminus, Bus Purchases, Bus Operating Expenses, Streetscape Improvements, and Neighborhood Protection/Plan Implementation/Transportation Demand Management (TDM).~~

Sec. 5. Section 7.3.2.2 of the Warner Center 2035 Plan is modified to read as follows:

7.3.2.2 In-Lieu Credit for Mitigation Measures. In-Lieu Mobility Fee credit shall may be given (on a one dollar to one dollar basis) for those mobility mitigation measures implemented by a Project for up to 82% of the total Mobility Fee obligation of the Project; DOT shall determine the amount of in-lieu credit applicable to the Project however, in-lieu credit shall be limited to the percentage share of the Mobility Fee by each individual Mobility Fee subcategory (street improvements, transit improvements, etc.) as set forth in Table 2 of Appendix D. In-Lieu Credits shall be applied to reduce the Mobility Fees after the required transportation/mobility improvements have been completed or guaranteed to the satisfaction of DOT and Department of Public Works – Bureau of Engineering.

Sec. 6. Section 7.3.2.3(a) of the Warner Center 2035 Plan is modified to read as follows:

(a) In-Lieu Credit shall be granted for land dedications for right-of-way purposes that implement those transportation/mobility improvements listed in Appendix ~~DE~~ of this Plan and are to be funded by the Mobility Fee. In-Lieu Credit shall be granted based on the cost of the land dedication at \$100.00 per square-foot estimated in determining the Mobility Fee in Appendix D. This In-Lieu Credit for land dedication will be adjusted by annual indexing pursuant to Section 7.4 of this Plan.

Sec. 7. A new Section 7.4.1 of the Warner Center 2035 Specific Plan is added to read as follows

7.4.1 Existing Use Credit for Mobility Fees.

The value of Existing Use Credits shall be increased or decreased at the same time, and in the same manner, as the Mobility Fees are annually adjusted pursuant to Section 7.4.

Sec. 8. Appendix D of the Warner Center 2035 Plan is modified to read as follows:

APPENDIX D

FOOTNOTES

[1] Each category contains a listing of the most common uses; however, not all uses are listed. Any use not listed in Categories A through F will be assessed at the rate as determined by the Director of Planning in consultation with the Department of Transportation.

[2] Pursuant to DOT policies, Work Live units are provided a credit that assumes that 50% of the morning trips and 35% of the afternoon trips are work to home and therefore a credit of 50% is applied for the total trips from the work-live portion of the project due to on-site travel. As a result, the

Mobility Table reflects a 50% credit for the Work Live Units in any proposed development in Warner Center. For purposes of this Table only, Work-Live is considered a residential use.

[3] Community Facilities greater than 40,000 square feet will be assessed the Category B rate for only the portion of the facility over 40,000 square feet.

[4] For Regional Shopping Centers only, Mobility Fees shall be based on Gross Leasable Floor Area FAR (minus the square footage of common areas), as determined by the Department of Building and Safety.

[5] Existing Use Credit shall be given using the rates provided in this table.

Version: ~~October 15, 2013~~ February 26, 2018

Sec. 9 Appendix D Table 2 of the Warner Center 2035 Plan is modified to read as follows:

OVERALL WARNER CENTER MOBILITY FEE COST BREAKDOWN

TOTAL MOBILITY IMPROVEMENT COSTS					
Improvement Measure	Total Cost (2010 Dollars)	% Paid for by Mobility Fee	Mobility Fees to be Collected	% Share of Total Mobility Fee	To be Collected from Outside Funding
Roadway Improvements	\$155,687,779	40%	\$62,300,000	40%	\$93,877,779
New Orange Line Station Terminus	\$10,000,000	20%	\$2,000,000	1%	\$8,000,000
Bus Purchase	\$16,000,000	20%	\$3,200,000	2%	\$12,800,000
Bus Operating Expenses	\$49,200,000	100%	\$49,200,000	32%	\$0
Streetscape Improvements	\$11,250,000	100%	\$11,250,000	7%	\$0
Neighborhood Protection, Local Development Corp, TDM, Administrative and Restudy Costs over life of the Plan	\$28,000,000	100%	\$28,000,000	18%	\$0
	\$270,137,779		\$155,950,000		\$114,187,779

Existing Warner Center Trip Fee Balance	\$7,507,019
After 10% Trip Credit for exempt project and 5.25% Incentivized Density Bonus ^[1]	33,334 <u>31,390</u> Person Trips
Mobility fee per trip	\$4,454 <u>\$4,728.99*</u>

[1] Refer to Specific Plan Section 6.2.1.2.2

* Trip fee assumes substantial transit, TOD and TDM vehicle trip reductions modeled for the Warner Center Specific Plan. The rate is only to be used in conjunction with Warner Center 2035 Specific Plan trip rates and is not applicable to any other form of trip generation estimation.

In-Lieu Credit for Streetscape Improvements is limited to 100% of the Total Cost as shown in **Appendix D** Table 2 not to exceed \$750,000 per mile (annually adjusted; \$250,000 for each side of the street and the median island) for implementing any streetscape improvements as shown in **Appendix F**, Figures 1 through 11.

No In-Lieu Credit is given for Neighborhood Protection, Local Development Corporation, TDM, Administrative and Restudy Costs.

For the purpose of calculating the mobility fee, the final Floor Area shall be determined by the Department of Building and Safety based on the Building Code definition for Floor Area and indicated on the building permit application.

Sec. 10. The Cost per Mitigation Measure Table in Appendix E of the Warner Center 2035 Plan is superseded by the following table and footnotes:

FINDINGS

CEQA Findings

Pursuant to the California Environmental Quality Act (CEQA), the project was assessed in the Warner Center Specific Plan Update EIR Case No. ENV-2008-3471-EIR, State Clearinghouse No. 1990011055, certified by City Council on April 24, 2013, and no subsequent EIR, negative declaration, or addendum is required for approval of the project.

Charter Findings

Pursuant to Charter Section 556, the proposed ordinance is in substantial conformance with the purposes, intent and provisions of the General Plan. The Warner Center 2035 Specific Plan became effective on December 25, 2013, through Ordinance No. 182,766. The proposed ordinance is an update and clarification to the Warner Center 2035 Specific Plan as it pertains to the methodology for calculating and assessing Mobility Fees pursuant to Section 7 of that Plan. The ordinance proposes no change in permitted or prohibited land uses, and no substantial change in existing development limitations or requirements. The ordinance will facilitate the collection of appropriate fees necessary to fund identified and specific mobility improvements required within the Plan area. The ordinance is consistent with and helps to further accomplish goals, objectives, and policies contained in portions of the General Plan, including the Citywide Mobility Plan 2035. Specifically:

Policy 2.3 Pedestrian Infrastructure – Recognize walking as a component of every trip, and ensure high-quality pedestrian access in all site planning and public right-of-way modifications to provide a safe and comfortable walking environment.

Policy 2.5 Transit Network – Improve the performance and reliability of existing and future bus service.

Policy 2.6 Bicycle Networks – Provide safe, convenient, and comfortable local and regional bicycling facilities* for people of all types and abilities.

Policy 2.9 Multiple Networks – Consider the role of each enhanced network when designing a street that includes multiple modes.

Policy 2.14 Street Design – Designate a street's functional classification based upon its current dimensions, land use context, and role.

Policy 2.17 Street Widening – Carefully consider the overall implications (costs, character, safety, travel, infrastructure, environment) of widening a street before requiring the widening, even when the existing right of way does not include a curb and gutter or the resulting roadway would be less than the standard dimension.

The list of specified public improvements required to be funded through the Warner Center 2035 Specific Plan's Mobility Fees are stated in terms of dedications, roadway widening, enhanced turn lanes, signalization, and public transportation. While these do not explicitly call out improvements to pedestrian or bike facilities, the Plan area does contain several enhanced network concepts for such improvements. When a public improvement is undertaken, providing pedestrian and bike enhancements and amenities are a part of the final designs which must be taken into consideration. As a result, more efficient collection of Mobility Fees will result in meeting many public infrastructure policy goals cited in Mobility Plan 2035.

The Canoga Park-Winnetka-Woodland Hills-West Hills Community Plan contains the following Goals and Objectives:

GOAL 10 DEVELOP A PUBLIC TRANSIT SYSTEM THAT IMPROVES MOBILITY WITH CONVENIENT ALTERNATIVES TO AUTOMOBILE TRAVEL.

Objective 10-1 - To encourage improved local/shuttle bus service through the Community Plan Area and encourage park-and-ride facilities to interface with freeways, high occupancy vehicle (HOV) facilities, and rail facilities.

GOAL 12 A WELL MAINTAINED, SAFE, EFFICIENT FREEWAY AND STREET NETWORK.

Objective 12-1 - Reduction of vehicular trip delays in the Community Plan Area through coordination of the street traffic signal system with the Caltrans freeway traffic management system.

GOAL 13 TO THE EXTENT FEASIBLE AND CONSISTENT WITH THE MOBILITY PLAN 2035'S AND COMMUNITY PLANS' POLICIES PROMOTING MULTI-MODAL TRANSPORTATION AND SAFETY, A SYSTEM OF FREEWAYS AND STREETS THAT PROVIDES ADEQUATE CIRCULATION TO SUPPORT EXISTING, APPROVED, AND PLANNED LAND USES AND MAINTAINS A DESIRED LEVEL OF SERVICE AT INTERSECTIONS.

Objective 13-1 - To the extent feasible and consistent with the Mobility Plan 2035's and the Community Plans' policies promoting multi-modal transportation and safety, comply with Citywide performance standards for acceptable levels of service (LOS) and insure that necessary road access and street improvements are provided to accommodate traffic generated by new development.

Through the more efficient collection of Mobility Fees, as facilitated by the proposed ordinance, the Goals and Objectives of the Community Plan are furthered throughout the Warner Center 2035 Specific Plan area. Collected Mobility Fees are not only reserved for proscribed travel lane and roadway improvements and intersection enhancements, but can also spent on the creation and enhancement of a proposed transit node, which would support or contribute to the multi-modal public transportation

system in the Plan area. Collected Fees that result in more direct improvements to roadway system would relieve traffic congestion through lane enhancements, roadway widening, and improved intersection signalization, all goals and objective so the Community Plan.

Pursuant to Charter Sections 556 and 558 and Sections 11.5.7 and 12.32 of the Los Angeles Municipal Code, the proposed land use ordinance will be in conformity with the purposes, intent and provisions of the General Plan, as well as the public necessity, convenience, general welfare and good zoning practice, as discussed above. The proposed ordinance, updating and clarifying the Warner Center 2035 Specific Plan as it pertains to the methodology for calculating and assessing Mobility Fees pursuant to Section 7 of that Plan, will facilitate the collection of appropriate fees necessary to fund identified and specific mobility improvements required within the Plan area. Collection of appropriate Mobility Fees in conjunction with qualified Projects will result in tangible mobility improvements within the Plan area, traffic congestion relief, associated improvements and enhancements to pedestrian areas, and improvements and enhancements to local public transportation. Achieving these improvements over the life of the Plan is consistent with the purposes, intent and provisions of the General Plan, and is in conformity with public necessity, convenience, general welfare and good zoning practice.
