Subject: hi-rise in Hollywood

Dear Sharon...

I live miles away from the site, but implore you to vote against it. It is the wrong scale, it will contribute to gridlock and will disrupt the lives of thousands of local residents, to say nothing of the sin of blocking the Hollywood sign and the Capitol Records site.

Thank you for your consideration..

Subject: Support for Millennium Hollywood
To: Sharon.Gin@lacity.org

Dear Sharon,

I know there are some in my community (Hollywood Hills) that are opposed to the Millennium Hollywood project near the Capitol Records building, but I wanted to voice my tentative support. That part of Hollywood should not have overbearing density limitations because it already has high density and wonderful access to public transit. While this development is certainly larger than what has been made in the past, it seems like it is the type of development and density we need in central Hollywood. I would hope that the planning commission makes sure the developers will accommodate good urban design practices such as pedestrian oriented frontage, bicycle and

non-car transit accommodations, etc. Additionally, this project has the potential to create fascinating and architecturally exciting buildings that compliment the Capitol Records building. As I understand it, the final design of the buildings has not been established, so I hope the planning commission can encourage the developers to create well designed buildings.

Best,

Zachary Pitts

It is too big. Something smaller would be acceptable.
