CD14

MOTION

For several years, the members of the Dolores Mission have advocated for the addition of a DASH bus route in their neighborhood of Boyle Heights in Council District 14. A DASH route would help connect the neighborhood to the medial services at White Memorial Hospital, for grocery stores, and the Metro Gold Line. The DASH bus would aid current transit riders with the problematic first and last mile connection from their homes or destination to major transit corridors. An expanded DASH service in this area would also encourage new transit riders.

I THEREFORE MOVE that the Department of Transportation, in consultation with the community members from Dolores Mission and other area stakeholders be directed to report on the feasibility of expanding the DASH bus service to Boyle Heights (CD14) in and around the Dolores Mission and with the options for possible funding sources for this purpose.
