

September 5th, 2013

Dear Sir,

COUNCIL FILE 13-0804-S1  
360 N. STONE CANYON RD.

As a long time resident of Lower Bel Air, just above UCLA, I drive by a property on Stone Canyon between Bellagio and Strada Costa + have just learnt that a 50 foot building is being proposed on that site. This would be completely out of character for our neighborhood. The building is close to the street and would totally change the look of street.

I beg the Council to uphold the 3 previous decisions made by the Planning Commission and confirm their decision to deny the applicants request for a variance. There are city codes that we all have had to follow, and for good reason and there is no special circumstance good enough to allow this variance.

Please, please, please do not allow the decisions made, to be overturned.

Sincerely  
Irene Donnamani.

COUNCIL FILE 13-0804-S1 -- 360 N. STONE CANYON RD. 9/5/13

To Whom it May Concern,

I live on Sierra Way in Bel Air + take my daily walk on Stone Canyon only to find out to my utter horror that a 50 foot building is being proposed at the development site on Stone Canyon between Bellagio Rd + Strada Corta. It is complete insanity to think that this could even be a consideration in our neighbourhood.

I urge you to uphold the 3 previous decisions made by the Planning Commission + confirm their wise decision to deny this variance from our city codes.

please do not permit this to happen.

Sincerely

Page Donnan
