Subject: ON-CALL CONSULTANT SERVICES FOR THE BUREAU OF SANITATION'S WASTEWATER, STORMWATER, AND SOLID RESOURCES PROGRAMS BUSINESS INCLUSION PROGRAM (BIP) RESULTS AND AUTHORITY TO EXECUTE PERSONAL SERVICES CONTRACTS WITH PRE-QUALIFIED ON-CALL CONSULTANTS FOR PLANNING AND TECHNICAL SUPPORT SERVICES FOR ALL BUREAU OF SANITATION'S PROGRAMS, ACTIVITIES AND MANDATES

As recommended in the accompanying report of the Directors of the Bureaus of Sanitation and Contract Administration, which this Board has adopted, the Board of Public Works requests approval and forwarding to the City Council for approval and authorization to execute Personal Services Contracts between the City of Los Angeles and approved Pre-Qualified On-Call Consultants to provide as-needed planning and technical support services for the Bureau of Sanitation's wastewater, stormwater and solid resources programs. The Personal Services Contracts are for five years duration from the execution date with an option of renewal for an additional five years based on Board approval.

FISCAL IMPACT

The selected consultant teams will provide services on as-needed basis on a cost plus basis for five years with an optional 5-year extension. Because the proposed contracts are for as-needed services, which will be identified in the future, it is not possible to provide specific funding information at this time. Appropriate funding information will be identified prior to requesting proposals from the firms for specific projects. These funds will be utilized from current and approved future budget items.

Respectfully submitted,

Arleen P. Taylor, Executive Officer
Board of Public Works

APT:mp

ADOPTED BY THE BOARD
PUBLIC WORKS OF THE CITY
of Los Angeles California
AND REFERRED TO THE MAYOR
FEB 28 2014

DEPARTMENT OF PUBLIC WORKS

BUREAU OF SANITATION
BUREAU OF CONTRACT ADMINISTRATION
JOINT BOARD REPORT NO. 1
FEBRUARY 28, 2014

Executive Officer

CD: ALL

ON-CALL CONSULTANT SERVICES FOR THE BUREAU OF SANITATION'S WASTEWATER, STORMWATER, AND SOLID RESOURCES PROGRAMS BUSINESS INCLUSION PROGRAM (BIP) RESULTS AND AUTHORITY TO EXECUTE PERSONAL SERVICES CONTRACTS WITH PRE-QUALIFIED ON-CALL CONSULTANTS FOR PLANNING AND TECHNICAL SUPPORT SERVICES FOR ALL BUREAU OF SANITATION'S PROGRAMS, ACTIVITIES AND MANDATES

RECOMMENDATIONS

1. Request the Board of Public Works (Board) deem AECOM Technical Services, Inc., AKM Consulting Engineers, and GeoSyntec Consultants to have met the BIP requirements as discussed in this report.
2. Upon approval of recommendation No.1, find AECOM Technical Services, Inc., AKM Consulting Engineers, GeoSyntec Consultants, Atkins, Black & Veatch Corporation, Brown and Caldwell, Carollo Engineers, CDM Smith, Inc., CH2M Hill Engineers Inc., DR Consultants & Designers, Inc., Hazen and Sawyer, HDR Inc., Kennedy/Jenks Consultants, Larry Walker Associates Inc., Malcom Pirnie/ARCADIS, MARRS Services Inc., MWH, Parsons, Parsons Brinckerhoff, Psomas, RMC Water and Environment, Tetra Tech Iwr., Shaw Environmental Inc., TRC Solutions Inc., and URS Corporation responsive to the RFQ requirements.
3. Approve and forward this report with transmittals to the Mayor and City Council for approval and authority to execute Personal Services Contracts between the City of Los Angeles and approved Pre-Qualified On-Call (PQOC) Consultants to provide as-needed planning and technical support services for the Bureau of Sanitation's wastewater, stormwater and solid resources programs. The Personal Services Contracts are for five (5) years duration from the execution date with an option of renewal for an additional five (5) years based on Board approval.
4. Request that the Board randomly select the names of the approved PQOC Consultants to create the initial order of ranking for the PQOC Consultants List found responsive to the RFQ for use in future assignments of work. (See Page #49 for list)
5. Upon the Mayor's and Council's approval and authorization, the President or two Commissioners of the Board will execute the Personal Services Contracts.
6. Notify Wastewater Engineering Services Division of Bureau of Sanitation (323) 342-6242 when the Contracts are ready to be executed by the Board. Five (5) original sets of the Contracts will be provided to the Secretary of the Board for execution.

*

TRANSMITTALS

1. Copy of the adopted Bureau of Sanitation (Bureau) and Bureau of Contract Administration Joint Board Report No. 1, dated January 13, 2012, authorizing the Bureau to distribute a Request for Qualifications (RFQ), negotiate and establish an on-call list of consultant services for planning and technical support services for the Bureau's Wastewater, Stormwater, and Solid Resources programs.
2. Copy of the RFQ, dated January 13, 2012, for on-call consultant services to provide planning and technical support services for the Bureau's wastewater, stormwater, and solid resources programs.
3. Copy of the letter sent by the Bureau, Central Contracts Unit (CCU) to AECOM Technical Services Inc. (AECOM), dated February 28, 2013, regarding the BIP evaluation of AECOM.
4. Copy of the letter sent by CCU, to AKM Consulting Engineers (AKM) dated February 28, 2013, regarding the BIP evaluation of AKM.
5. Copy of the letter sent by CCU, to GeoSyntec Consultants (GeoSyntec) dated February 28, 2013, regarding the BIP evaluation of Geosyntec.
6. Copy of the protest letter sent by AECOM to the Bureau, dated March 20, 2013, in response to CCU's BIP evaluation of AECOM.
7. Copy of the protest letter sent by AKM to the Bureau, dated April 4, 2013, in response to CCU's BIP evaluation of AKM.
8. Copy of the protest letter sent by GeoSyntec to the Bureau, dated April 12, 2013, in response to CCU's BIP evaluation of GeoSyntec.
9. Master copy of the proposed Personal Services Contract between the City and the selected consultant firms.
10. Copy of the email sent by WorleyParsons Group Inc., dated September 9, 2013, regarding the terms of the contract.

DISCUSSION

Background

The Bureau, whose mission is to protect the public health and the environment, delivers three major core services by managing and administrating the following programs:

Wastewater Program: The Bureau is responsible for operating and maintaining one of the world's largest wastewater collection and treatment systems. Over 6,700 miles of sewers serve more than four million residential and business customers in Los Angeles and 29 contracting cities and agencies. These sewers are connected to the City's four wastewater and water reclamation plants that can process an average of 550 million gallons of wastewater each day of the year.

Watershed Protection Program: This program is designed to protect the beneficial uses of receiving waters while complying with all flood control and pollution abatement regulations. This broad-based program encompasses public education and outreach, commercial/industrial facilities inspection, private development plan approval, construction development activities inspection, illicit discharger and illegal dumping site investigations, monitoring of the City's receiving water bodies to keep the storm drain system free of trash and pollutants, and to create cleaner waterways, neighborhoods and beaches.

Solid Resources Program: The Bureau collects refuse, recyclables, yard trimmings, and bulky items from more than 750,000 homes as well as maintains compliance with State recycling mandates. Household waste is collected curbside from all single family and small multiple family residences. Recycling mandates are met by collecting Solvents, Automotives, Flammables and Electronics (SAFE) at collection centers in order to recycle and dispose of electronics and household chemicals; operating transfer, mulching and composting facilities; and seeking creative and innovative ways to reduce environmental harm and increase waste diversion away from limited landfill space.

In addition, the Climate Change Adaptation Program, a nascent fourth core program that is still under formation, may require the use of these technical services.

The Bureau is currently facing a number of regulatory challenges and new mandates, which require quick and specialized analysis and response. These new mandates have direct impact on the Bureau's day-to-day operations. These quick demands on the Bureau create short duration increases/peaks in workload that can't be fully absorbed by existing staff. To be responsive to these requirements and mandates, the Bureau will need to utilize all available and necessary resources. These include utilizing the Bureau's in-house staff and experts as long as the workload can be accommodated and doesn't impact the Bureau's customer service. In some instances, the type of technical analysis and work needed is very limited in duration and requires very quick turn-around time and specialized expertise that goes beyond the capability of the Bureau's in-house staff. Also, in some instances, the Bureau requires response and input from industry experts who have experience with similar regulatory or program challenges.

To meet these specialized needs, where long term staffing is not feasible and existing staffing is not available or unable to perform the required tasks, the Bureau seeks to establish an on-call list of consulting firms to provide these services on an as needed basis.

On January 13, 2012, the Board authorized the Bureau to distribute a RFQ and negotiate and establish an on-call list of consultant services for planning and technical support services for the Bureau's Wastewater, Stormwater and Solid Resources programs (Transmittal No. 1). The contracts resulting from the RFQ (Transmittal No. 2) would replace the existing on-call consulting contracts to ensure uninterrupted services.

Scope of Services

The Bureau plans to utilize the on-call consulting services to provide specialized and expert services for the following, but not limited to:

Wastewater Program - Planning, Scientific and Technical Issues, Operational Support Services, Plant Optimization, Sewer System Structural and Hydraulic Condition Assessment, Sewer Capacity Plan, Rehabilitation Plan, Development of Industrial Waste Discharge Standards, Fats, Oil and Grease Program, Regulatory Compliance Requirements, Odor Control Implementation and Testing, amongst other services.

Biosolids Program – Planning, Scientific and Technical Issues, Maintenance and Operational Support Services, Development of Biomass Alternative Technologies and Management, Regulatory Compliance Requirements, amongst other services.

Stormwater Program – Planning, Scientific and Technical Issues, Operational Support Services, Evaluation of discharge limits for Santa Monica Bay, Ballona Creek, Los Angeles River and Long Beach Harbors, Total Maximum Daily Loads (TMDLs) Compliance, Regulatory Compliance Requirements, amongst other services.

Solid Resources Program - Strategic Planning, Scientific and Technical Issues, Operational Support Services, Commercial Recycling Planning, Development of Resource Recovery as an Alternative to the Use of Landfills, Regulatory Compliance Requirements, EPA grant funded for Brownfield sites' assessment Phase I and Phase II, amongst other services.

Climate Change Adaptation Program, a nascent program that is still under formation.

Financial Revenue and Bond Program – Financial Analysis, Financial Screening, Funding Sources, review of current rate structure, amongst other services.

Information Technology (IT) Services – Technical Assistance

Strategic Planning/Safety and Training Program – Specialized Training and Human Resources Development, support the Bureau's ongoing labor-management strategic planning effort, amongst other services.

Quality Assurance/Value Assessment – Review feasibility, constructability and cost-effectiveness of recommended projects and programs.

Provide services to build support to critically and urgently needed system enhancements, programs and service upgrades or certain pilot projects/programs.

Public Outreach/Education Program – Including, but not limited to, communicating and coordinating with community groups; arranging community meetings and public hearings; media outreach, developing or using social media; and preparing printed, digital, or electronic literature for public dissemination.

Proposed Term of Agreements

The selected consultant teams will provide services on as needed basis for five (5) years with one optional 5-year extension.

Evaluation Process

The technical qualifications were rated by a panel comprised of Bureau of Sanitation and Bureau of Engineering staff and were based on the following criteria:

Selection/Evaluation Criteria

- **Technical Qualification and Experience** **25%**
 - Demonstrate technical and planning expertise relating to complex Wastewater, Stormwater, Solid Resources and Climate Change issues.
 - Demonstrate innovative and creative ability in handling complex projects.
 - Demonstrate knowledge of current issues and regulatory developments in the industry that have an impact to the City.
 - Demonstrate flexibility and leadership skills in developing and implementing complex projects.

- **Record of Past Performance** **25%**
 - Proven track record of completed work specifically for complex Wastewater projects, Stormwater projects, Solid Resources and Climate Change projects.
 - Work experience with regulatory agencies and in regulatory compliance specifically Wastewater, Stormwater, Solid Resources and Climate Change related issues.

- **Project Management & Delivery** **25%**
 - Demonstrate ability to complete complex projects within budget and on-schedule.
 - Demonstrate efficient utilization of personnel
 - Provide competitive fee schedules (Cost, Overhead rates, Profit margins)

- **Overall Company Resources and Access** **15%**
 - Composition of team (including subconsultants) and ability to meet Bureau's diverse needs.
 - Firm's location, including local office resources.

- **Familiarity with the City of Los Angeles** **10%**
 - Knowledge of City of Los Angeles facilities, rules, policies, and procedures.

Based on the evaluation criteria, all 26 firms met the minimum technical qualification requirements and are recommended for contract award by the review panel.

Local Business Preference Program

The Local Business Preference Program (LBPP) which was established by Ordinance No 181910 did not have any bearing on the evaluations due to the recommendation to award to **all** responsive Proposers. However, staff confirmed that the following respondents qualified for the LBPP in accordance with the RFQ requirements:

1. Black & Veatch Corporation
2. DR Consultants & Designers, Inc.
3. Malcolm Pirnie/ARCADIS
4. Psomas

Assignment of Work

Initially, the selected consultants will be listed in random order. Assignment of Task Orders under these contracts will generally be performed in one of the following manners noted below:

For Large Task Orders with estimated cost of equal to or more than \$1,000,000

The City will issue a Task Order Solicitation and will request all consultants on the list to submit proposals on an upcoming project. For each desired Task Order, the project will be awarded to the pre-qualified on-call consultant whose proposal represents the best overall value to the City for the requested work. The selected respondent will be moved to the bottom of the list for the purpose of subsequent work assignments. The TOS shall be awarded by the Board.

For Moderately sized Task Orders greater than \$250,000 but less than \$1,000,000

The City will issue a Task Order Solicitation and will request the top three (3) consultant firms on the list to submit a proposal. The project will be awarded to the pre-qualified on-call consultant whose proposal represents the best overall value to the City for the requested work. The selected respondent will be moved to the bottom of the list for the purpose of subsequent work assignments. The TOS shall be awarded by the Board.

For Smaller sized Task Orders equal or less than \$250,000

The City will issue a Task Order Solicitation to the first ranked firm on the list. Negotiations will follow on the terms for the project, specifically on the scope of work, deliverables, schedule, and costs. If an agreement cannot be reached with the first firm, the City reserves the right to negotiate with the next firm on the list and so on until an agreement is reached. The successful consultant will then be rotated to the bottom of the list for the purpose of subsequent work assignments. The TOS shall be awarded by the Bureau Director or his/her designee.

Page 7

Once an agreement is reached, the City will issue a Notice to Proceed. No work is authorized until the City issues the Notice to Proceed to the selected firm. No guarantee of work is given or implied to any of the consultants on the list.

The City reserves the right to advertise any Task Order, regardless of the size, to the top 3 Consultant Firms or the entire list. Under certain special conditions, the City may choose to award the Task Order regardless of the size to the first ranked firm on the list subject the concurrence of the Board.

Contractor Responsibility Ordinance

All participants in this program are subject to compliance with the requirements specified in the City of Los Angeles' Contractor Responsibility Ordinance No. 173677, [Division 10, Chapter 1, Article 14, Los Angeles Administration Code (L.A.A.C.)] Failure to comply with all requirements specified in the Ordinance will render the consultants' contracts subject to termination pursuant to the conditions therein.

Contractor Performance Evaluation

In accordance with Division 10, Chapter 1, Article 13, L.A.A.C., the appropriate City personnel responsible for the quality control of these personal services contract shall submit Contractor Performance Evaluation Reports to the Bureau of Contract Administration, Special Research & Investigation Section upon completion of the Contracts.

Notification of Intent to Contract

The required Notification of Intent to Contract was filed with the CAO Clearinghouse on September 18, 2012.

Charter Section 1022

On August 3, 2011, the CAO determined that there was insufficient existing City staff to perform the work and that contracting was in the best interest of the City.

Other City Contracting Requirements

The PQOC Contracting Consultants will comply with the requirements including the following:

- Non-Discrimination/Equal Employment/Affirmative Action Plan
- Equal Benefits Ordinance
- Service Contractor Worker Retention Ordinance
- Living Wage Ordinance
- Slavery Disclosure Ordinance
- Child Support Obligations,
- Americans with Disabilities Act
- Business Tax Registration Certificate
- Insurance
- Los Angeles Residence Information
- Contract History
- Municipal Lobbying Ordinance
- Non-Collusion Affidavit

First Source Hiring Ordinance
Contract Bidder Campaign Contribution and Fundraising Restrictions

City Attorney Review

Bureau Staff completed contract negotiations and proposed contracts were drafted (Transmittal No. 9). The City Attorney reviewed and approved the contracts as to form.

Contract Administration

The responsibility for the administration of this contract will be with the Wastewater Engineering Services Division.

Business Inclusion Program (BIP)

It is the policy of the City of Los Angeles to provide Minority Business Enterprises (MBEs), Women Business Enterprises (WBEs), Small Business Enterprises (SBEs), Emerging Business Enterprises (EBEs), Disabled Veteran Business Enterprises (DVBEs), and all Other Business Enterprises (OBEs) an equal opportunity to participate in the performance of City contracts. For the purpose of this RFQ, the City set anticipated participation levels of 18% MBE, 4% WBE, 25% SBE, 8% EBE, and 3% DVBE based upon the potential areas of work which may be subcontracted.

On January 13, 2012, the Board authorized the Bureau to distribute a RFQ and to negotiate and establish an on-call list of consultant services for planning and technical support services for the Bureau's Wastewater, Stormwater and Solid Resources programs (Transmittal No. 2). Twenty-six (26) proposals were received in response to the RFQ prior to the March 28, 2012 due date. The Bureau's Central Contracts Unit (CCU) reviewed the BIP documentation submitted with each proposal. In order to be deemed responsive, proposers were required to submit BIP documentation as described in Attachment A-08 of the RFQ, and to successfully complete the seven (7) indicators of the BIP Outreach requirements.

After a detailed review and evaluation by CCU of the BIP documentation submitted by the twenty-six (26) proposers (AECOM, AKM, Atkins, Black & Veatch Corporation, Brown & Caldwell, Carollo Engineers, CDM Smith Inc., CH2M Hill Engineers Inc., DR Consultants & Designers Inc., GeoSyntec, Hazen & Sawyer, HDR Inc., Kennedy/Jenks Consultants, Larry Walker Associates Inc., Malcolm Pirnie/ARCADIS, MARRS Services Inc., MWH, Parsons, Parsons Brinckerhoff, Psomas, RMC Water and Environment, TetraTech Iwr., Shaw Environmental Inc., TRC Solutions Inc., URS Corporation, and Worley Parsons Group Inc.), CCU found Atkins, Black & Veatch Corporation, Brown & Caldwell, Carollo Engineers, CDM Smith Inc., CH2M Hill Engineering Inc., DR Consultants & Designers Inc., Hazen & Sawyer, HDR Inc., Kennedy/Jenks Consultants, Larry Walker Associates Inc., Malcolm Pirnie/ARCADIS, MARRS Services Inc., MWH, Parsons, Parsons Brinckerhoff, Psomas, RMC Water and Environment, TetraTech Iwr., Shaw Environmental Inc., TRC Solutions Inc., and URS Corporation to be responsive. Worley Parsons Group Inc., removed themselves from consideration after having rejected the terms specified in the contract (Transmittal No.10). CCU found AECOM, AKM, and GeoSyntec to have failed their respective BIP evaluations due to Indicator No. 4, but CCU believes that the Board could deem AECOM, AKM, and GeoSyntec

responsive. On February 28, 2013, CCU emailed detailed notifications of being found Non-responsive to these three (3) proposers. (Transmittal Nos. 3-5)

AECOM, AKM, and GeoSyntec issued responses to CCU's evaluation with letters dated March 20, 2013, April 4, 2013, and April 12, 2013 (Transmittal Nos. 6-8), respectively.

The following summarizes the indicator in contention by describing:

- (1) The required documentation for Indicator 4;
- (2) AECOM, AKM, and GeoSyntec submitted documentation;
- (3) AECOM, AKM, and GeoSyntec response to CCU's non-responsive notification; and
- (4) CCU's response.

Indicator (4)-Written Notices to Subconsultants

The requirement for this indicator states that: *Proposers must send invitations for subconsulting bids to available MBEs, WBEs, SBEs, EBEs, DVBEs, and OBEs for each item of work to be performed. Required Documentation includes E-mail notification in each of the selected potential work items to potentially available MBEs, WBEs, SBEs, EBEs, DVBEs and OBEs for each anticipated work item to be performed. The notification must be performed using the BAVN's BIP Outreach system. The notification must be to potential subconsultants currently registered on the BAVN. Proposers are required to send notifications to a sufficient number of firms comprised of MBEs, WBEs, SBEs, EBEs, DVBEs and OBEs in each potential work item chosen, as determined by the City.*

All respondents to the RFQ were required to outreach to a specified minimum number of firms consisting of MBEs, WBEs, SBEs, EBEs, DVBEs, and OBEs for each of the ten (10) unique NAICS Codes (work areas). While AECOM, AKM, and GeoSyntec made notifications to the minimum number of firms required in each of the NAICS Codes, they failed to outreach to any EBE and DVBE firms in three (3) NAICS Codes (562111-Solid Waste Collection, 562112-Hazardous Waste Collection, 562119-Other Waste Collection).

AECOM, AKM, and GeoSyntec provided a universal response to the non-responsive notification letters sent to them by CCU in that they all stated that the RFQ and RFQ Attachment A-08 detailed the work areas associated with the project and how responsiveness would be determined. All three firms also asserted that the RFQ and RFQ Attachment A-08 only requires notifications be sent to companies registered in the 6-digit NAICS Codes listed and there were not any registered EBE or DVBE firms in the 6-digit NAICS Codes. Additionally, both AECOM and GeoSyntec stated that the RFQ and RFQ Attachment A-08 does not state a requirement to send notifications to companies registered in the 4-digit or 5-digit NAICS Codes and also referenced Addendum No.2, Question 12 as having stated that if any additional NAICS Codes need to be added, they will be added through another addendum. Lastly, GeoSyntec also asserted that the one EBE and DVBE certified firm, Ittoukoku International, listed in the 4-digit NAICS Code 5621 has primary expertise in Janitorial Services which is not relevant to this RFQ. GeoSyntec also stated that they should receive credit for sending a BAVN notification to Trans-Global Services, a certified EBE, and Odic Environmental, a certified DVBE.

The BIP requirements state that respondents must send an "Email notification in each of the selected potential work items to potentially available MBEs, WBEs, SBEs, EBEs, DVBEs, and OBEs for each anticipated work item to be performed." Since there was one potentially available EBE/DVBE certified firm, Ittoukoku International, registered in the 4-digit NAICS Code (5621), staff could not make a determination that these three firms met all of the BIP outreach requirements. However, the Board of Public Works has discretion and can take into consideration other unique facts. In reviewing and investigating the protests submitted by AECOM, AKM, and GeoSyntec, staff found that although the other twenty-two (22) respondents all outreached to Ittoukoku International, none of them documented receiving a response from this firm which would have indicated an interest in working with them on this contract. Additionally, while Ittoukoku International was registered in a broad spectrum of NAICS Codes, including 5621, at the time the BIP outreach was performed, it has since removed NAICS Code 5621 from its BAVN profile. Lastly, staff confirmed that both AECOM and GeoSyntec sent BAVN notifications to Trans-Global Services, a certified EBE, and Odic Environmental, a certified DVBE, and that AKM also sent a BAVN notification to Trans-Global Services. However, AECOM, AKM, and GeoSyntec could not receive credit for these notifications because at the time the outreach was performed, Trans-Global Services had not requested to be listed as an EBE certified firm on BAVN. Similarly, Odic Environmental did not add NAICS Code 56211 to its BAVN profile until May 2013. Therefore, based on these unique facts, CCU is recommending that the Board find AECOM, AKM, and Geosyntec to have substantially met the Indicator 4 BIP requirements and deem them to have met the BIP requirements of this RFQ.

The following tables list the RFQ respondent's potential Subconsultants which are the only ones that may be utilized on project task orders without meeting and performing additional outreach requirements.

Gender/Ethnicity Codes:

- | | |
|-----------------------------------|------------------------------|
| AA = African American | HA = Hispanic American |
| SAA = Subcontinent Asian American | APA = Asian Pacific American |
| C = Caucasian | NA = Native American |
| M = Male | F = Female |

Summary of BIP Evaluations and Recommendation

The Bureau of Sanitation, Central Contracts Unit (CCU), received BIP documentation from AECOM, AKM, Atkins, Black & Veatch Corporation, Brown & Caldwell, Carollo Engineers, CDM Smith Inc., CH2M Hill Engineers Inc., D R Consultants & Designers Inc., GeoSyntec, Hazen &

Sawyer, HDR Inc., Kennedy/Jenks Consultants, Larry Walker Associates Inc., Malcolm Pirnie/ARCADIS, MARRS Services Inc., MWH, Parsons, Parsons Brinkerhoff, Psomas, RMC Water & Environment, Tetra Tech Inc., Shaw Environmental Inc., TRC Solutions Inc., URS Corporation, and WorleyParsons Group Inc. Of the twenty-six (26) BIP proposals evaluations completed, twenty-two (22) are recommended as responsive, one RFQ response was removed from consideration at the request of the proposer (WorleyParsons), while the three (3) remaining proposers, (AECOM, AKM, and GeoSyntec), were found non-responsive by staff due to Indicator No. 4 but could be found responsive by the Board. After reviewing all of the documentation submitted, CCU is recommending that the Board deem all of the respondents except WorleyParsons Group Inc., responsive to all of the requirements for the planning and technical support services for the Bureau's Wastewater, Stormwater and Solid Resources programs RFQ and establish the on-call list of consultant services.

Statement of Financing

The selected consultant teams will provide services on as needed basis on a cost plus basis for five (5) years with an optional 5-year extension. Because the proposed contracts are for as-needed services, which will be identified in the future, it is not possible to provide specific Funding Information at this time. Appropriate funding information will be identified prior to requesting proposals from the firms for specific projects. These funds will be utilized from current and approved future budget items.

This contract includes a "Financial Liability Clause" which states that "the City's liability under this contract shall only be to the extent of the present City appropriation to fund the contract. However, if the City shall appropriate funds for any succeeding years, the City's liability shall be extended to the extent of such appropriation, subject to the terms and conditions of the contract."

Respectfully submitted
