My house is across from the above stated property.

My parking area on the street is very limited in that we are in a cul-de-sac. City trucks like trash collections, UPS, truck deliveries, all need to turn around in order to leave the cul-de-sac. The street is limited to one lane for parking and one lane for traffic only.

We do not have a street that has parking on both sides!!!
It would be very hard with a crew and laborers on the street.
It would be nice to have landscape preservation.

BIRD STREET LLC needs to re-construct our road to hillside city standards upon completion of their SPEC project, which would take approximately three years to finish.

Regards,

Gregory Yeardye
