Comments for Public Posting: Amended Protected Tree Ordinance I urge the Public works and Gang Reduction Committee to hold a hearing to on the proposed amended protected tree ordinance that would add Mexican Elderberry and Toyon to the list of protected tree/ shrubs. Looking out over the City from the hills Hancock Park stands out as an island of green in a an almost sterile world due to the density of trees. What makes Laurel Canyon different is trees so vital to our ecosystem and wildlife. Casual constant unsupervised tree cutting is going on. It is only a matter of time before we too become sterile.
