

## Communication from Public

**Name:** NS LOS ANGELES TAXPAYING RESIDENT

**Date Submitted:** 06/30/2020 07:40 AM

**Council File No:** 13-1493

**Comments for Public Posting:** You are putting the needs of the vendors above those that are Brick and Mortar. In reading your proposal, you are using MY tax dollars to help with their equipment and permits. What I find most interesting is that you do NOT allow vendors outside of Staples and Dodger Stadium but you have NO problem with them outside of struggling businesses. It is bad enough that there have been NO repercussions on all the illegal vendors we have turned in for dumping grease and oil into our storm drains. No repercussions on open flame set ups on our sidewalks during the fire season. No repercussions for unpermitted and filthy carts blocking the sidewalks. No repercussions at all. You pick and choose which laws people must follow and who must follow them. Last I checked you are to serve ALL your constituents in the city of Los Angeles, not just the ones who you pander to for votes. I have never been more ashamed to be a resident of Los Angeles than I do now.
