Mr. White,

I am a resident of Los Angeles in the 8th district and would like to express my disapproval on the proposal to allow street vendors in my area. We already have a proliferation of these street vendors and it is not legal now. The vendors are not regulated by any health department which is criminal in itself and the city does not have a comprehensive outline on how that would change. Who would enforce the laws? Our police department is already overwhelmed. They are unsightly in a community with a mountain of issues it already needs to overcome. Please know that I and my neighbors are not in support of this proposal.

Thank you,

Tania Williams
