Dear Public Works, Gang Reduction and Housing Committee, and Honorable City Council Members,

Please include in Council File 13-1493, the following correction for to Jan 31, 2017 letter from Planning and Land Use

Committee, So West Neighborhood City Council, in regards to "Street Vendors Districts".

Correction below:

When 90 constituents were surveyed in regards to Street vending Districts in regards to the question is there more Positives versus negatives in regards to street vending? 81 answered there were more "Negatives versus Positives".

1. Majority of Constituents agreed there must be a comprehensive Outreach and Education Campaign in South LA before implementing Street Vending Districts, guidelines needed are needed.

2. Community concerns, and recommendations must be recognized, acknowledged, addressed, resolved, and incorporated, into the Vending Districts development plans. 81, out of 90 surveyed.

3. Eliminate problems with collaboration between City Departments, for regulation and enforcement, to control litter, debris, traffic congestion, and health and safety concerns. 78 of 90 surveyed

4. The Planning and Land use Committee and the Constituents of 8th district surveyed recommend that the eight district "opt out" of the Vending District designation with a "NO" vote. 81 out of 90 surveyed. Please "Opt out So-West LA of Street Vending designations".

Sincerely, and respectfully yours,

Planning and Land Use Committee, Neighborhood Empowerment Committee, and Constituents.
