Item Number:

Summary: 1) An ordinance amending Section 5.199 of the Los Angeles Administrative Code to substitute the term “animal sterilization” for “pet sterilization”, 2) Propose an increase to the per household cat limit from three to five, 3) Certification of the Citywide Cat Program Final Environmental Impact Report. The purpose of The Citywide Cat Program is to assist in achieving the City’s no kill goal and to support the City’s adoption of TNR as the preferred method of addressing the City’s free roaming (feral or stray) cat population. Facilitating more spaying and neutering will reduce the number of free roaming cats over time and reduce the rates of euthanasia and the number of cats in animal shelters in a more humane manner.
