RE: HEARING ON TO ACQUIRE PROPERTIES BY

EMINENT DOMAIN - APN 224-610-22

FROM: JOHANNA E. KEYZER

I received your notice dated July 20/15

My disability prevent me from attending
But I do like to comment on this matter.

I am unfamiliar with eminent domain
procedures. Heard of it but never thought
that little piece of land would be subject
to it. Not for such a small piece of land
in Kern County

Many years ago I paid a lot more money
for this land, and when the plans for
an airport in Palmdale was cancelled,
my property's value went down to almost
nothing. I waited patiently all these
years so I could at least break even.
I had some hope when I heard there
was some activity in Kern County and

the value is improving, Several RE companies had called to purchase my land and I always refused. I was waiting and hoping

Now when I finally thought I would be able to recuperate my losses LADWP came along. At first they had agents calling to put some pressure on me, when that did not work they spoke of the eminent domain

The money I lost is probably just pocket money for you, so what would you know about people that worked so hard many years ago to acquire a small piece of land then LADWP decided to take it away from me anyway!

It is not fair! It's mean and inconsiderate

Respect
D.E. Keyser
