Re: COUNCIL FILE 13-1580 – Rodenticide

Dear Mayor Garcetti and Chairman O'Farrell and Honorable Members of the APHAR Committee,

I urge you to ^{establish} / enforce a ban prohibiting rodenticide. Not only is poison an excruciatingly painful way to die, but it doesn't stop with the animal who eats it. Predators & scavengers who eat the poisoned animal also perish in the same way (i.e., biological magnification). Endangered species are no exception. Pets are no exception.

Thanks for your consideration.

Sincerely,

Lesia A. Miller
