I want to express my hope that rodenticides will be banned in the entire state. There is no justification for using this poison which kills many unintended target animals, including pets. As someone said, it like using a hammer in a glass house to kill roaches. Please do all you can to spare the pets and other wildlife who eat the poisoned rats and die a horrible, unnecessary death. Please ban this terrible product.

Thanks for considering my viewpoint,

Sincerely,

Cathy Thornburn
