Los Angeles, California 90012

Re: Motion by Councilmember Bonin on Los Angeles International Airport Air Quality Source Apportionment Study, File No. 14-0032 - SUPPORT

Dear Chair LaBonge and Members of the Committee:

The Coalition for Clean Air (CCA) supports the motion before you on Tuesday, January 28, which would require the Los Angeles World Airports to report to the City Council on the results of the LAX Air Quality Source Apportionment Study with regard to ultrafine particle issues and efforts to mitigate their impacts upon neighboring communities. This report would be an important first step toward addressing the air quality and public health issues raised by the Source Apportionment Study findings.

Established in 1971, CCA is California's only statewide public interest organization exclusively advocating for improving air quality and preventing climate change. Our mission is to restore clean, healthy air to California by advocating for effective public policy and practical business solutions.

Please contact me at (213) 223-6866 or joe@ccair.org if you have any questions or need additional information. Thank you for considering our support for requiring LAWA to follow up on its air quality study results.

Sincerely,

A handwritten signature in black ink that reads "Joseph K. Lyou". The signature is written in a cursive, flowing style.

Joseph K. Lyou, Ph.D.
President & CEO
