Ms. Dickinson,

We have been following the news about City Council actions on second dwelling units. We appreciate Councilman David Ryu's efforts and your work on this.

As we expect they will grandfather in existing pending permit applications, we ask that the fees for re-filing lapsed applications not be imposed, because the building permits desk halted all permit time extensions during the uncertainty at the City Council level.

Thank you.

Ms. Dickinson,

My message should have stated we wish not to be required to pay for the extension fees, because the extensions were only necessary because of the city delays due to the court acations.

Thank you.
