Impact Information
Date: 05/20/2014
Update to a Previous Input: No
Directed To: City Council and Committees
Council File Number: 14-0122
Agenda Date:
Item Number:
Brief Summary: We support the efforts to provide an adequate budget and staffing to ensure all project conditions are enforced. Without enforcement, the conditional use permits granted are open to the practice of cutting corners which is not acceptable and can result in safety issues. Our council agrees that enforcement be done from Planning where most conditions originate and are understood.
Additional Information:
Support Condition Compliance Unit (CF#14-0122): Motion relative to the Department of City Planning to report on the resources needed to supplement the Condition Compliance Section to expand its Conditional Use Permit related functions, including: handling complaints, conducting field investigations and monitoring for compliance.  Diana Nave submitted the following motion which was seconded by George Thompson and approved by unanimous vote of the board:

**MOTION IN SUPPORT OF CF 14-0122**

Whereas the City of Los Angeles has a history of providing Conditional Use Permits that make exception to the zoning code; and

Whereas part of the process of obtaining a Conditional Use Permit involves a hearing at which the public, including the neighborhood councils, express their concerns, the results of which are oftentimes incorporated as conditions in the permits; and

Whereas community support of the project, and ultimately City approval of the project is conditioned on those conditions; and

Whereas many of the conditions are important to the health and well being of the community; and

Whereas currently there is no viable enforcement of those conditions rendering them almost meaningless and eroding faith in the planning process and government;

Now therefore, the Northwest San Pedro Neighborhood Council supports CF 14-0122 and the establishment of a permanent Code Compliance Unit in the Planning Department with sufficient resources to monitor Conditional Use Permits and urges the City Council to adopt it as quickly as possible.
