Subject: Comment letter for Council File: 14-0163-S3.

To: CityClerk@lacity.org

I am submitting this comment letter to Council File 14-0163-S3.

Dear Councilmembers,

I do not believe there is a factual basis for the Council's Budget & Finance Committee vote to de-link the Vision Zero High Injury Network repair priority locations from the city's sidewalk repair program. Please do not support this decision.

I cannot imagine a rationale for the Committee's action; I hope it was not in response to some more vocal/demanding constituents'

complaints in the Committee members' districts.

I urge you to retain the Vision Zero High Injury Network (HIN) in the Bureau of Engineering (BOE) proposed Sidewalk Repair Program (SRP) prioritization methodology. The HIN represents the only prioritization criteria in the BOE-proposed SRP to include City interdepartmental coordination, social equity, and a tool to potentially accelerate and scale-up this program.

Sincerely,
Ellen Isaacs
CD 5 resident

Subject: comment for Council File: 14-0163-S3

I would like to submit a comment letter to Council File 14-0163-S3. I think it is critical that this be fixed and the for the Los Angeles City Council to retain the Vision Zero High Injury Network (HIN) in the Bureau of Engineering (BOE) proposed Sidewalk Repair Program (SRP) prioritization methodology. The HIN represents the only prioritization criteria in the BOE-proposed SRP to include City interdepartmental coordination, social equity, and a tool to potentially accelerate and scale-up this program.

Sincerely,
Anna Adams
