Brief Summary: The MVCC will support transparent, and exploration of all, cost effective strategies for repairing/replacement of damaged sidewalks including permeable materials such as modular rubberized systems. ADA requirements pertaining to sidewalks shall be met, ensuring accessibility for stakeholders of all ages.

Additional Information: The City should prioritize public safety and tree replacement with natives, and develop incentivized, voluntary property owner participation plans with a streamlined permitting process. The City should employ the same tactic as the 'Pothole Blitz' program, and work with NCs to document and rank urgent sidewalk repairs.

Discussion of Policy Motion and submission of Community Impact Statement concerning sidewalk repairs:

The Mar Vista Community Council will support transparent, and exploration of all, cost effective strategies for repairing/replacement of damaged sidewalks including permeable materials such as modular rubberized systems.

ADA requirements pertaining to sidewalks shall be met, ensuring accessibility for stakeholders of all ages.

The City should prioritize public safety and tree replacement with natives, and develop incentivized, voluntary property owner participation plans with a streamlined permitting process.

The City should employ the same tactic as the 'Pothole Blitz' program, and work with Neighborhood Councils to accurately document and to rank the most urgent sidewalk repairs.

Sharon Commins: offers a rewording to avoid pitfalls.

Tom Ponton: interested in language that would include modular rubberized systems.

Melissa Stoller: suggests the word "replacement" be added

Mitchell Rishe: suggests the word "new" be replaced with permeable
