I am representing the CA Restaurant Association and we do not have a report to put on file however we do have some questions:

- 1) Will this living wage ordinance include restaurants that lease space in the designated hotels? If so, what is the reasoning behind including them?
- 2) In reviewing type of wage requirement in hotels in the LAX Corridor and in other Cities, how has an increase in living wage impacted the restaurants leasing space in the hotels.

Just want to make sure restaurants are not overlooked as far as economic impact.

Hello John,

Just checking in on the status of the economic impact study for the living wage proposal for Hotel Workers. I think the Economic Dev Committee asked for a 45 day turn around so I am wondering the status at this point. Do you know who is handling this and to whom I might direct my questions?

Please advise,

Adena Tessler
