Deny this report and approval of the MOUs. We ask that you obtain all financial projections and anticipated funding for this extensive complicated project and review the legal implications of providing water outside of the LADWP and the Charter.

It is an artistic project that should not be placed on the back of the taxpayers through the use of City services and employees nor should the LA River Ecosystem Restoration be placed on the taxpayers backs for a private party.

This project usurped the Pueblo Water Rights of the City of Los Angeles by the Mayor's approval to the State Water Board. Now you want the City to assume the responsibility and extensive permitting of this project.
