Cc: Felipe Fuentes <councilmember.fuentes@lacity.org>

May 6 2014 [Motion.... Fuentes-Englander]To whom it may concern,I am in bed with a serious infection from an accident.So at this point can't elaborate on my concerns about DWP and the City of LA in regard to Zoning protection.But the Chief Legislative Analyst , as well as the City Attorney, Dept of building and safety And the Dept of City Planning....really need to review the Solar Rights acts, in my mind.These solar farms ,are not farms but energy commercial plants ,scheduled for residential ,agricultural and equestrian zoned lands.As I have researched the City of LA is a charter city and legally does the Gov. of CA have the right to force legislation on how our City is run , especially in regard to municipal affairs. Normally I would have a lot more to say,but am laid up in bed,but feel it is my right to express my feelings and support Councilman Fuentes's motion of reform regarding this matter.I need my voice heard.Thank you Filipe Fuentes and you team for getting this going.Again I am in support of Reviewing solar right acts and support amendments to Council File # 14-0331.

Who would allow and support putting 3500 solar panels and all the chemicals involved in the middle of a very serious fire zone!!! Let alone a residential community.

I have voiced my opinion .
