I am a concerned citizen and photographer who lives in Sherman Oaks. My wife and I love being able to see wildlife without having to drive very far. I am in support of **CF 14-0356** if it means wildlife will be protected from careless or malicious individuals.

We are concerned that despite much prominent signage, some park visitors seem to disregard the rules and regulations meant to protect the wildlife, especially birds.

An example of this is when we have seen an entire family take their dog on a walk beyond the sign clearly indicating no dogs allowed beyond this point. We are concerned that people do not understand the effect a large dog can have on the breeding bird population and we are also concerned that such careless or entitled park visitors feel like the lack of enforcement means that they can do whatever they want because they can get away with it, even when politely confronted.

Thank you for your time.
