Hello, my name is Anibal Mejia, I live/work in district 9 and I am a social equity applicant. Commissioners, we are part of the Social Equity Owners and Workers Association. There is relevant evidence contained in a video that will support the claim that more than 30 people got in early as stated by Councilmember Herb Wesson's Chief Aide, Andrew Westhall. It's been emailed to the Commission and forwarded to you all by Commission Executive Assistant, Josie Trevizo on February 27th. We implore you to fully investigate the evidence. Additionally, we urge you to request on our behalf that the City Council consider the following recommendations... -124 additional licenses to reach full community plan capacity - Include comprehensive vetting criteria for social equity eligibility and all operational, partnership and management agreements - Make delivery licenses immediately available for all 802 applicants - A minimum of 90 days to reacquire a property for applicants who lost their property during the city's delays - For phase 3 round 2, we want a seat at the table to help create the new vetting and application processing criteria
Thank you for your consideration!
