**Comments for Public Posting:** Great morning and thank you for the opportunity of allowing our voices to be heard. Once again I present myself to The Council in hopes that the words you hear move you to action. Over two years ago I stood before you in City Hall, warning against what has now happened. Many businesses have closed, many angry people parade the Streets, and now, there are those who seek the funds that have been granted to this City... our 40 Acres and a Mule. For decades, we have fought for this natural plant, this herb, that heals so many, and all we want is what we are justly due. I have a facility in District 8, submitted during Phase 2, one of which I have given everything I have to keep afloat, including falling into the predatory practices that we were warned of due to the lack of funding. Despite my many cries to The City of what was taking place, I received no help... Now, The City has over 6m to disburse to those who truly need the help. The funding, to allow their dreams to be fulfilled and to help a City that truly needs help. I am seeking the protection you promised to give us. I am seeking the money you promised to give us. I am seeking the opportunity to amend my application to include Retail-Non Delivery, as you promised us. I am also seeking the opportunity to host a Health and Wellness Cannabis Event within Los Angeles. Years ago I asked the Council for this, now I ask once more, as the first person in the State to receive a Cannabis Events license, and as a minority, social equity, woman owned business. We have stayed silent for much too long, fighting with everything in us, to walk in The Light and not in the Darkness anymore. Please help us. You called us from the Dark, promising many things, and we believed you, now is the time for you to make good on your promises. Thank you, Mae Bereal CEO/Founder of High End Society & LAV8 Corp.

I am in support of the lawsuit filed by Social Equity Owners & Workers Association against the DCR and the city of L.A. The application process was unfair and disadvantaged hundreds of applicants. You need to take action. Cat Packer should've never been given the opportunity to lead this process. She is a compulsive liar and omits information that the public should know. She is not a leader. It's been 2 years of nothing but lies and this process has ruined many lives of angelenos when it was suppose to help. All of the evidence is there that this was a tainted and unfair process. It went from only 2 people gaining early access to 12, 14, and after the audit was complete we've found out that 226 people had early access. We do not trust Cat Packer and her team of liars. I'm #200 on the list and I started at 10am. How? This process was manipulated but Cat Packer and her colleagues and something major should be done for the people in this city that were affected. My friend, partner, and social equity applicant gave this city 5 years for his life for 1 ounce of cannabis!!!!!! The council should release licenses to the other 702 applicants because the city (south la) is goin to be a war zone because of this unfair and blatantly disrespectful process. It's been enough suffering. We need council to step in and rescue this process. The Social Equity Program was the 1st Corona Virus.

**Comments for Public Posting:** Hello, my name is, Felicia Carbajal and I live in district 4. I am and advocate for all things that better our human condition. As we all know our city is in crisis and I stand in support of my council members motions on a rent freeze. I support any and all efforts made by the city to revamp their broken institution to better serve her citizens. Additionally I stand in support of item 43& 44. We ask continue to ask for the CIty of LA to implement community oversight past the cannabis commission. As the cannabis industry serves our community as an essential business I feel strongly to suggest as much oversight from community leaders working on the ground not just on economic development of this nascent industry but with community leaders who have served the people in those highly impacted zones for decades. I am in support of the lawsuit filed by Social Equity Owners & Workers Association against the DCR and the city of L.A. The application process was unfair and disadvantaged hundreds of applicants. You need to take action.
