Comments for Public Posting: DCR has issued a RFQ for services but community leaders who provide services found it to be arduous. There are a number of grass roots community leaders who need technical assistance. As this process stands it promotes cronyism and is counter intuitive to looking at the entire process with a wide equity lens. We request that City Council extend the RFQ process and add technical assistance training to navigate the process.

Comments for Public Posting: DCR has issued a RFQ for services, but community leaders who provide services have found it to be arduous. There are a number of grassroots community leaders who need technical assistance. As issued, the RFQ is not accessible to the community leaders currently doing the work, and instead promotes cronyism and leaves the position open for conflicted industry interests.
