Dear Honorable Herb Wesson,

First of all, we would like to thank you for the time and effort you have put into the proposed regulations regarding the Commercial Cannabis Industry thus far. As of now, there are no regulations regarding social consumption in the city of Los Angeles. Therefore, the question is left of where one can consume. This only leaves two places a person could consume; their own private residence, or another's private residence, with permission. This is a serious problem and we are proposing a possible solution.

We are proposing a mobile cannabis lounge to operate on the streets of LA. We will provide a safe and secure facility for adults, 21 and over, to consume cannabis privately and discretely in a unique social environment. The lounge will be a 20-30 person bus, outfitted with fully tinted windows as well as the driver being separated from the carriage by a partition.

There are cities in Colorado and Washington that have businesses similar to the one we are planning to operate here in Los Angeles. These businesses have been running in compliance with city and state laws, while at the same time showing profitability. Los Angeles should and will be the industry leader when it comes to cannabis. We have many avenues to tap into in this emerging market, the idea we are proposing is just one.

We feel this could be very beneficial for the city of Los Angeles. The tax revenue is an obvious benefit but our main focus will be

the tourism aspect of the cannabis industry and highlighting the premier destinations Los Angeles has to offer. Another benefit will be the number of DUI's a business like this would limit. Instead of driving and consuming, they will enjoy our unique and intriguing lounge.

This is a very exciting time for California and the city of Los Angeles. We look forward to working with you through this whole process.

Sincerely,
Nice Guys
