Summary:

On November 8, 2016, your Committee considered an October 28, 2016 MFC report relative to the proposed purchase of the former CRA/LA property located at 18132-18138 and 18210 West Sherman Way from the CRA/LA and sale of said property to American Skating and AEG. According to the MFC, in January 2015, the City entered into an Option Agreement with CRA/LA-DLA (a designated local authority) to purchase the vacant land totaling 92,788 square feet located at 18132-18138 and 18210 W. Sherman Way (property). The Property is currently owned by the CRA/LA-DLA, successor to the CRA/LA, and is categorized as a future development property in CRA/LA's Long Range Property Management Plan.

Through the term of the option agreement, the City has the right to acquire the property for the appraised fair market value, as well as the right to solicit and sell the property to a buyer that will use the property consistent with the provisions of the Redevelopment Plan, the Five Year implementation Plan, and the Community Plan for the project area. The recommendations contained in the October 28, 2016 MFC report are for the approval of the Disposition Plan as required under the option agreement, which includes a description of a conceptual scope of development, an anticipated schedule of performance, and evidence that the proposed use of the property is consistent with the Redevelopment Plan, the Five Year Implementation Plan, and the Community Plan for the project area.

Future approvals will be required to authorize the execution of the transactional documents and adoption of the sale ordinance. The anticipated future development will be developed by American Skating and AEG in cooperation with Magnolia Science Academy (Magnolia). Magnolia currently owns property adjacent to the proposed development and will benefit from the future development by having access to parking and space within the multi-purpose facility. AEG was identified as a potential development partner to help access Recreational and Cultural Facilities Program LA for Kids (Prop K) funds set-aside to combat the inadequacies and decay of the city's youth infrastructure. As a result, Prop K funds such activities as feasibility studies, site and building design, and construction and project management for new facilities which benefit the City's youth.

Key development features that are being worked out in alignment with the intended uses of the site include the following:

- a. Attractive sports complex to stimulate economic revitalization along Sherman Way
- b. On/off-site Transportation, Circulation and Parking
- c. Sustainable Design Features

After consideration and having provided an opportunity for public comment, the Committee moved to recommend approval of the recommendations contained in the October 28, 2016 MFC report and detailed in the above recommendations. This matter is now submitted to Council for its consideration.

Respectfully Submitted,

ECONOMIC DEVELOPMENT COMMITTEE
