

Item # 1

Request for a friendly amendment from Councilmember Paul Krekorian to expand the report back on CF14-0581 to:

Instruct the Planning Department to report back on the feasibility of identifying the areas within the City of Los Angeles, which are in or within 500 feet of the entire National Park Service, Rim of the Valley Corridor Special Resources Study Area (Feb 2016) as a "Potential Regional Wildlife Habitat Linkage Zone". Provide a system of informing all applicants of building permits and planning approvals that they are within this Zone and should make feasible accommodations for wildlife linkages. Require the accommodation of wildlife linkage areas during the approval process of Parcel and Track Maps within this zone and the feasibility of the Planning Department to incorporate these maps and critical Wildlife linkage areas at the time of Community Plan updates.

Date: 4-19-16
