Subject: support Council file 14-0518 -Wildlife Habitat Linkage Zones

Message: Chairman Huizar and members of the PLUM Committee, I am a Citizen for Los Angeles Wildlife and I support a Wildlife Linkage Zone ordinance. The Santa Monica mountain range is a critical Wildlife Habitat. We, who live in these mountains, supported a tax on ourselves to provide money for the Santa Monica Mountains Conservancy to purchase lands to provide habitat and to protect the migratory patterns of our native animals. We are committed to preserving our animal population, please help us by making sure that every new building project undergoes a checklist and review for wildlife habitat connectivity and permeability. It needs to be passed now!

Message: Dear Chairman Huizar and Honorable Members of the PLUM Committee, I am a Citizen for Los Angeles Wildlife and I support a Wildlife Habitat Linkage Zone ordinance. The Santa Monica Mountains is a special mountain range eco-system that runs through the heart of Los Angeles. LA City's eastern portion of urbanized canyons and hillsides between the I-405 and I-5 freeways is a critical Wildlife habitat Linkage Zone that should be established in our municipal code in order to protect the migratory patterns and habitats of our native animals. As part of the ordinance, please make sure every new building project undergoes a checklist and review for wildlife habitat connectivity and permeability. It needs to be passed now.
