Message: Dear Chairman Huizar and Honorable Members of the PLUM Committee, I am a Citizen for Los Angeles Wildlife and I support a Wildlife Habitat Linkage Zone ordinance. The Santa Monica Mountains is a special mountain range eco-system that runs through the heart of Los Angeles. LA City's eastern portion of urbanized canyons and hillsides between the I-405 and I-5 freeways is a critical Wildlife habitat Linkage Zone that should be established in our municipal code in order to protect the migratory patterns and habitats of our native animals. As part of the ordinance, please make sure every new building project undergoes a checklist and review for wildlife habitat connectivity and permeability. It needs to be passed now.

Dear City Council Members,

We ask you to support the creation and preservation of a Wildlife Corridor in the Santa Monica Mountains,
as part of the Hillside Ordinance Zoning.

Please forward this email to the city council members who will be considering this issue.

Thank you very much in advance.

Sincerely,

Maria Gritsch

Motion 14-0518 - before City Planning

Beth Dymond <emdymond45@gmail.com>

Wed, Apr 13, 2016 at 3:12 PM

To: Sharon.Dickinson@lacity.org

Dear Ms. Dickinson,

Please lodge this email with the Planning and Land Use Committee to be read at the April 19th public hearing.

I support Motion 14-0518 to instruct the Planning Department to prepare and present an ordinance to create a wildlife corridor in the eastern Santa Monica Mountains. The ordinance should follow the criteria as laid out in Councilmember Koretz's motion 14-0518 which is before the committee.

Thank you.

Very truly yours,

Beth Dymond

RE: Los Angeles City Council File 14-0518

Hearing Date April 19th @ 2:00 p.m.

Planning and Land Use Committee.

Dear Ms. Dickinson:

Re: The above public hearing before the Planning and Land Use Committee (PLUM) pursuant to motion made by Council member Paul Koretz on the Wildlife Corridors and Habitat Fragmentation issue.

SCRA has over 1,000 member households a significant number of which reside in that part of the Santa Monica Mountains that would be subject to the establishment of wildlife corridors without significant loss of use and value to their properties as has been demonstrated in the past by voluntary establishments of such corridors by owners.

The undersigned has served for many years on the Mulholland Scenic Parkway Scenic Advisory Committee and has knowledge of the effect of not allowing wildlife to transit from one habitat area to another habitat. The fragmentation of well-established and known animal pathways inevitably leads to a reduction of a diverse and healthy gene pool leading to an overall reduction in the numbers of many species of wild life and the health of wildlife in these mountains.

Please add to the above council file and place before the PLUM committee members that the Studio City Residents Association (SCRA) supports without reservation the motion as submitted and requests that the motion pass for submission to the full Los Angeles City Council with a recommendation that the proposal contained in said motion be adopted.

Thank you for your attention to this matter,

Sincerely,

Alan Dymond,

Alan Dymond

President

Cc CM Paul Krekorian
