Re: Council File 14-0518 – Support Wildlife Habitat Linkage Zones

Dear Chairman Huizar and Honorable Members of the PLUM Committee,

As a former wildlife rehabilitator & animal control officer, I understand the value & necessity of interconnecting green spaces. Wildlife, esp. endangered species, depend on these corridors to forage, take shelter, pursue prey, breed/raise young, escape danger, & move from one area to another. Humans have moved into what was once natural space, & have been forced out and/or die as a result. The people who currently live here, understandably, want to preserve what little remains – for their quality of life, for their children, & for the animals who call it their home, too.

Sincerely,
