Dear Chairman O'Farrell and honorable committee members,

The proposed ball fields will result in a major reduction in the size of Crystal Springs Picnic Facility including area available to the wide public representing diverse interests. The Crystal Springs Picnic facility provides opportunities for group and individual picnicking, free play and relaxation in a beautiful and tranquil natural setting. A wonderful escape from the stress of daily life and routines. To sacrifice this treasure would be myopic and irresponsible, especially in this stress laden and high density city which already has a shortage of open public park areas.

Clearly, by public park area, I am not referring baseball fields. There are alternatives to where such baseball field could be located that do not sacrifice beautiful public park areas currently enjoyed by a wide spectrum of Los Angelinos, Californians, and out of state visitor.

August 7, 2014

Sincerely,

Peter Bodlaender
