CAO Recommendations

- Comply with capital investment, Reserve Fund, and Budget Stabilization Fund policies.
- New revenues identified should first be put toward addressing known gaps in the budget: Police overtime and Fire ambulance augmentation.
- If other additions are made, they should be accompanied by deletions of equal value or new sources of revenues.
- Do not include speculative revenue or engage in deficit borrowing.
- Services should only be restored or enhanced through ongoing sources of funds. Should services be restored or enhanced, also account for support services.
