Dear Councilmember Koretz,

Thank you for approving the new BMO/BHO ordinance (Council File #14-0656) as recommended by PLUM and amended by the council. As a resident of Los Angeles in Council District 5, I want to express my continued support for the ordinance as it was amended and approved by Council. I also support the R1 variations zones amendments as recommended for the 16 re-zoning areas. Please keep R1V2 for Lower CD5, or at least the basic BMO limits if you are convinced R1V2 is too restrictive for the entire district.

I believe it is critical we take these steps to better regulate residential development and maintain the quality of life we enjoy in our various neighborhoods. I know I join many other citizens of Los Angeles, and many of our Neighborhood Councils, in supporting this version of the ordinance.

Thank you.

David Scott
Woodbine St.
Los Angeles, CA 90064
