## EXECUTIVE DIRECTOR

Roxana Tynan

August 12, 2014

Councilmember Paul Koretz  
200 North Spring Street, Suite 440  
Los Angeles, CA 90012

Re: Climate Change Motion - SUPPORT

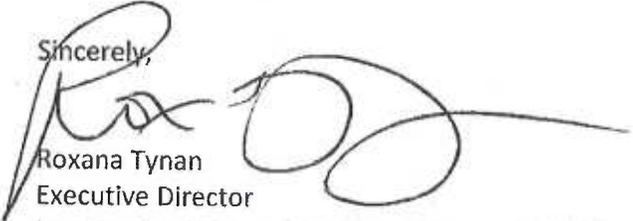

Dear Councilmember Koretz,

The Los Angeles Alliance for a New Economy (LAANE) is writing in support of your motion that directs key City of Los Angeles departments to significantly reduce their greenhouse gas emissions over the next three decades. As an organization that advocates on a daily basis for the creation of healthier communities and good jobs, we know how important it is for Los Angeles to set and achieve stronger environmental goals. These standards are particularly important for residents in low income communities who often suffer from the worst impacts of pollution and climate change.

Reducing our greenhouse gas emissions will not only reduce pollution and empower our communities to become more resilient to climate change, it also has the potential to create quality jobs, especially for disadvantaged communities. We have demonstrated in many of our campaigns that the Green Economy can be built on the principles of quality jobs that provide living wages, health care and safe working conditions. We are confident that your motion pushes us into that direction.

Once again, LAANE is honored to lend our voice and support to such an important motion.

Sincerely,

  
Roxana Tynan  
Executive Director  
Los Angeles Alliance for a New Economy (LAANE)
