In accordance with provisions of Los Angeles Municipal Code (LAMC) Section 17.03 of the, the Advisory Agency approved Tentative Tract Map No. 72131 composed of one-lot, located at 843-845 North Fuller Avenue in the Hollywood Community Plan area for a new maximum 9-unit residential condominium (including (3) density bonus units of which (1) unit will be set aside for Very Low Income households) as shown on map stamp-dated November 14, 2012. This unit density is based on the [Q]R3-1XL Zone. (The subdivider is hereby advised that the LAMC may not permit this maximum approved density. Therefore, verification should be obtained from the Department of Building and Safety, which will legally interpret the Zoning code as it applies to this particular property.) For an appointment with the Development Services Center call (213) 482-7077. The Advisory Agency’s approval is subject to the following conditions:

NOTE on clearing conditions: When two or more agencies must clear a condition, subdivider should follow the sequence indicated in the condition. For the benefit of the applicant, subdivider shall maintain record of all conditions cleared, including all material supporting clearances and be prepared to present copies of the clearances to each reviewing agency as may be required by its staff at the time of its review.
BUREAU OF ENGINEERING - SPECIFIC CONDITIONS

1. That any fee deficit under Work Order No. EXT00482 expediting this project are paid.

2. That Board of Public Works approval is obtained, prior to the recordation of the final map, for the removal of any tree in the existing or proposed right-of-way area. The Bureau of Street Services, Urban Forestry Division, is the lead agency for obtaining Board of Public Works approval for removal of such trees.

DEPARTMENT OF BUILDING AND SAFETY, GRADING DIVISION

3. Comply with any requirements with the Department of Building and Safety, Grading Division for recordation of the final map and issuance of any permit.

DEPARTMENT OF BUILDING AND SAFETY, ZONING DIVISION

4. Prior to recordation of the final map, the Department of Building and Safety, Zoning Division shall certify that no Building or Zoning Code violations exist on the subject site. In addition, the following items shall be satisfied:

   a. Show all street dedication as required by Bureau of Engineering and provide net lot area after all dedication. "Area" requirements shall be re-checked as per net lot area after street dedication. Front yard requirements shall be required to comply with current code as measured from new property lines after dedication.

Notes:

The submitted Map may not comply with the number of parking spaces required by Section 12.21 A 4 (a) based on number of habitable rooms in each unit. If there is insufficient number of parking spaces, obtain approval from the Department of City Planning.

The submitted Map may not comply with the number of guest parking space required before any construction, occupancy or change of use.

Any proposed structures or uses on the site have not been checked for and shall comply with Building and Zoning Code requirements. Plan check will be required before any construction, occupancy or change of use.

An appointment is required for the issuance of a clearance letter form the Department of Building and Safety. The applicant is asked to contact Laura Duong at (213)482-0434 to schedule an appointment.
DEPARTMENT OF TRANSPORTATION

5. Prior to recordation of the final map, satisfactory arrangements shall be made with the Department of Transportation to assure:

a. A parking area and driveway plan shall be submitted to the Citywide Planning Coordination Section of Department of Transportation for approval prior to submittal of building permit plans for plan check by the Department of Building and Safety. Transportation approvals are conducted at 201 N. Figueroa Street, Suite 400, Station 3.

FIRE DEPARTMENT

6. Prior to the recordation of the final map, a suitable arrangement shall be made satisfactory to the Fire Department, binding the subdivider and all successors to the following: (MM)

a. Submittal of plot plans for Fire Department review and approval prior to recordation of Tract Map Action.

b. Access for Fire Department apparatus and personnel to and into all structures shall be required.

c. Building designs for multi-stored residential building shall incorporate at least one access stairwell off the main lobby of the building, but in no case greater than 150 feet horizontal travel distance from the edge of the public street, private street or fire lane. This stairwell shall extend unto the roof.

d. Entrance to the main lobby shall be located off the address side of the building.

e. Any required Fire Annunciator panel or Fire Control Room shall be located within 50 feet visual line of site of the main entrance stairwell or to the satisfaction of the Fire Department.

f. Where rescue window access is required, provide conditions and improvements necessary to meet accessibility standards as determined by the Los Angeles Fire Department.

g. No building or portion of a building shall be constructed more than 150 feet from the edge of the roadway of an improved street, access road or designated fire lane.
h. Fire lane width shall not be less than 20 feet. When a fire lane must accommodate the operation of Fire Department aerial ladder apparatus or where fire hydrants are installed those portions shall not be less than 28 feet in width.

i. No building or portion of a building shall be constructed more than 300 feet from an approved fire hydrant. Distance shall be computed along path of travel.

j. Site plans shall include all overhead utility lines adjacent to the site.

k. Any roof elevation changes in excess of three feet may require the installation of ships ladders.

l. The applicant is further advised that all subsequent contact regarding these conditions must be with the Hydrant and Access Unit. This would include classification, verification of condition compliance and plans or building permit application, etc., and shall be accomplished by appointment only, in order to assure that you receive service with a minimum amount of waiting please call (213) 482-6504. You should advise any consultant representing you of this requirement as well.

DEPARTMENT OF WATER AND POWER

7. Satisfactory arrangements shall be made with the Los Angeles Department of Water and Power (LADWP) for compliance with LADWP's Water System Rules and requirements. Upon compliance with these conditions and requirements, LADWP's Water Services Organization will forward the necessary clearances to the Bureau of Engineering. (This condition shall be deemed cleared at the time the City Engineer clears Condition No. S-1.(c.).)

BUREAU OF STREET LIGHTING

8. Prior to the recordation of the final map or issuance of the Certificate of Occupancy (C of O), street lighting improvement plans shall be submitted for review and the owner shall provide a good faith effort via a ballot process for the formation or annexation of the property within the boundary of the development into a Street Lighting Maintenance Assessment District.

Improvement condition: No street lighting improvements if no street widening per BOE improvement conditions. Otherwise relocate and upgrade street light; (1) one on Fuller Avenue.
NOTES: The quantity of street lights identified may be modified slightly during the plan check process based on illumination calculations, equipment selection, LADOT and/or LA BOE conditions. Conditions set: 1) in compliance with a Specific Plan, 2) by LADOT, or 3) by other legal instrument excluding the Bureau of Engineering conditions, requiring an improvement that will change the geometrics of the public roadway or driveway apron may require additional or the reconstruction of street lighting improvements as part of that condition.

BUREAU OF SANITATION

9. Satisfactory arrangements shall be made with the Bureau of Sanitation, Wastewater Collection Systems Division for compliance with its sewer system review and requirements. Upon compliance with its conditions and requirements, the Bureau of Sanitation, Wastewater Collection Systems Division will forward the necessary clearances to the Bureau of Engineering. (This condition shall be deemed cleared at the time the City Engineer clears Condition No. S-1. (d.).)

INFORMATION TECHNOLOGY AGENCY

10. That satisfactory arrangement is made in accordance with the requirements of the Information Technology Agency to assure that cable television facilities will be installed in the same manner as other required improvements. Refer to the LAMC Section 17.05-N. Written evidence of such arrangements must be submitted to the Information Technology Agency, 200 North Main Street, 12th Floor, Los Angeles, CA 90012, 213 922-8363.

DEPARTMENT OF RECREATION AND PARKS

11. That the Quimby fee be based on the R3 density. (MM)

URBAN FORESTRY DIVISION AND THE DEPARTMENT OF CITY PLANNING

12. Prior to the issuance of a grading permit, the applicant shall submit a tree report and landscape plan prepared by an oak tree expert as designated by LAMC Ordinance No. 153,478, for approval by the City Planning Department and the Urban Forestry Division of the Bureau of Street Services.

A minimum of two oak trees (a minimum of 48 inch box in size) shall be planted for each one that is removed. The canopy of the oak trees planted shall be in proportion to the canopies of the oak trees removed per Ordinance No. 153,478, and to the satisfaction of the Urban Forestry Division of the Bureau of Street Services and the Advisory Agency. Note: All oak tree removals must be approved by the Board of Public Works on sites more than one acre in size. Contact: Urban Forestry Division at: (213) 485-5675.
DEPARTMENT OF CITY PLANNING - SITE SPECIFIC CONDITIONS

13. Prior to the recordation of the final map, the subdivider shall prepare and execute a Covenant and Agreement (Planning Department General Form CP-6770) in a manner satisfactory to the Planning Department, binding the subdivider and all successors to the following:

a. Limit the proposed development to a maximum of nine (9) dwelling units, of which one (1) shall be set aside for Very Low Income Households.

b. Prior to the issuance of a building permit for any dwelling unit on the subject property, the applicant shall execute and record a purchase covenant agreement running with the land, to the satisfaction of the Los Angeles Housing Department ("LAHD"). The covenant shall bind the applicant and/or any subsequent property owner to reserve one (1) of the proposed nine (9) units for occupancy by Very Low Income households. The 35% density bonus, grants the applicant an additional three units in excess of the six units otherwise permitted by the [Q]R3-1 Zone. These units will be restricted as affordable for-sale dwelling units, pursuant to California Government Code Section 65915 and Los Angeles Municipal Code Section 12.22 A.25. All density bonus calculations resulting in fractional units shall be rounded up to the nearest whole number (Gov. Code Section 65915 (g)(5)). Applicant must provide an affordable unit dispersal proposal to be approved by LAHD to ensure that affordable units are not segregated or otherwise distinguishable from market rate units.

c. Provide a minimum of two covered off-street parking spaces per market rate dwelling unit and one parking space for the Very Low Income Household unit. The applicant is requesting a reduction in the amount of required parking pursuant to Los Angeles Municipal Code Section 12.22 A.25, Parking Option 2.

d. Prior to issuance of a certificate of occupancy, a minimum 6-foot-high slumpstone or decorative masonry wall shall be constructed adjacent to neighboring residences, if no such wall already exists, except in required front yard.

e. An air filtration system shall be installed and maintained with filters meeting or exceeding the ASHRAE Standard 52.2 Minimum Efficiency Reporting Value (MERV) of 12, to the satisfaction of the Department of Building and Safety. (MM)

f. That a solar access report shall be submitted to the satisfaction of the Advisory Agency prior to obtaining a grading permit.
That the subdivider considers the use of natural gas and/or solar energy and consults with the Department of Water and Power and Southern California Gas Company regarding feasible energy conservation measures.

Recycling bins shall be provided at appropriate locations to promote recycling of paper, metal, glass, and other recyclable material. (MM)

The applicant shall install shielded lighting to reduce any potential illumination affecting adjacent properties. (MM)

Prior to the clearance of any tract map conditions, the applicant shall show proof that all fees have been paid to the Department of City Planning, Expedited Processing Section.

Indemnification. The applicant shall defend, indemnify and hold harmless the City, its agents, officers, or employees from any claim, action, or proceeding against the City or its agents, officers, or employees to attack, set aside, void or annul this approval which action is brought within the applicable limitation period. The City shall promptly notify the applicant of any claim, action, or proceeding and the City shall cooperate fully in the defense. If the City fails to promptly notify the applicant of any claim action or proceeding, or if the City fails to cooperate fully in the defense, the applicant shall not thereafter be responsible to defend, indemnify, or hold harmless the City.

Prior to recordation of the final map the subdivider shall prepare and execute a Covenant and Agreement (Planning Department General Form CP-6770) in a manner satisfactory to the Planning Department requiring the subdivider to identify mitigation monitors who shall provide periodic status reports on the implementation of mitigation items required by Mitigation Condition Nos. 6, 11, 13e, 13h, and 13i of the Tract's approval satisfactory to the Advisory Agency. The mitigation monitors shall be identified as to their areas of responsibility, and phase of intervention (pre-construction, construction, post construction/maintenance) to ensure continued implementation of the above mentioned mitigation items.

Prior to the recordation of the final map, the subdivider shall prepare and execute a Covenant and Agreement (Planning Department General Form CP-6770) in a manner satisfactory to the Planning Department, binding the subdivider and all successors to the following:

**MM-1** Every building, structure, or portion thereof, shall be maintained in a safe and sanitary condition and good repair, and free from debris rubbish, garbage, trash, overgrown vegetation or other similar material, pursuant to Municipal Code Section 91.8104.
MM-2 All open areas not used for buildings, driveways, parking areas, recreational facilities or walks shall be attractively landscaped and maintained in accordance with a landscape plan and an automatic irrigation plan, prepared by a Landscape Practitioner (Sec. 12.40-D) and to the satisfaction of the decision maker.

MM-3 A minimum five-foot wide landscape buffer shall be planted adjacent to the residential use.

MM-4 The exterior of all buildings and fences shall be free from graffiti when such graffiti is visible from a street or alley, pursuant to Municipal Code Section 91.8104.15.

MM-5 Outdoor lighting shall be designed and installed with shielding, such that the light source cannot be seen from adjacent residential properties or the public right-of-way.

MM-6 The exterior of the proposed structure shall be constructed of materials such as, but not limited to, high-performance and/or non-reflective tinted glass (no mirror-like tints or films) and pre-cast concrete or fabricated wall surfaces to minimize glare and reflected heat.

MM-7 No window openings or exhaust vents shall be permitted on the building facade which abuts a residential use or zone.

MM-8 Install a demand (tankless or instantaneous) water heater system sufficient to serve the anticipated needs of the dwelling(s).

MM-9 Environmental impacts may result from erosion carrying sediments and/or the release of toxins into the stormwater drainage channels. However, the potential impacts will be mitigated to a less than significant level by incorporating stormwater pollution control measures. Applicants must meet the requirements of the Standard Urban Stormwater Mitigation Plan (SUSMP) approved by Los Angeles Regional Water Quality Control Board, including the following (a copy of the SUSMP can be downloaded at: http://www.swrcb.ca.gov/nwqcb4/):

MM-10 The applicant shall comply with mitigation measures required by this MND.

MM-11 Relocation Plan. Prior to sign-off of any project-related permit, the applicant shall submit and obtain approval of the plan from the decision-maker.
MM-12 Prior to the issuance of a demolition permit, and pursuant to the provisions of Section 47.07 of the Los Angeles Municipal Code, a tenant relocation plan shall be submitted to the Los Angeles Housing Department for review and approval.

MM-13 The following recommendations of the Fire Department relative to fire safety shall be incorporated into the building plans, which includes the submittal of a plot plan for approval by the Fire Department either prior to the recordation of a final map or the approval of a building permit. The plot plan shall include the following minimum design features: fire lanes, where required, shall be a minimum of 20 feet in width; all structures must be within 300 feet of an approved fire hydrant, and entrances to any dwelling unit or guest room shall not be more than 150 feet in distance in horizontal travel from the edge of the roadway of an improved street or approved fire lane.

MM-14 The plans shall incorporate the design guidelines relative to security, semi-public and private spaces, which may include but not be limited to access control to building, secured parking facilities, walls/fences with key systems, well-illuminated public and semi-public space designed with a minimum of dead space to eliminate areas of concealment, location of toilet facilities or building entrances in high-foot traffic areas, and provision of security guard patrol throughout the project site if needed. Please refer to "Design Out Crime Guidelines: Crime Prevention Through Environmental Design", published by the Los Angeles Police Department. Contact the Community Relations Division, located at 100 W. 1st Street, #250, Los Angeles, CA 90012; (213) 486-6000. These measures shall be approved by the Police Department prior to the issuance of building permits.

MM-15 The applicant shall pay school fees to the Los Angeles Unified School District to offset the impact of additional student enrollment at schools serving the project area.

MM-16 The project shall comply with Ordinance No. 170,978 (Water Management Ordinance), which imposes numerous water conservation measures in landscape, installation, and maintenance (e.g, use drip irrigation and soak hoses in lieu of sprinklers to lower the amount of water lost to evaporation and overspray, set automatic sprinkler systems to irrigate during the early morning or evening hours to minimize water loss due to evaporation, and water less in the cooler months and during the rainy season). In addition to the requirements of the Landscape Ordinance, the landscape plan shall incorporate the following:

a. Weather-based irrigation controller with rain shutoff
b. Matched precipitation (flow) rates for sprinkler heads
c. Drip/micro spray/subsurface irrigation where appropriate
d. Minimum irrigation system distribution uniformity of 75 percent
e. Proper hydro-zoning, turf minimization and use of native/drought tolerant plan materials
f. Use of landscape contouring to minimize precipitation runoff

MM-17 Unless otherwise required, and to the satisfaction of the Department of Building and Safety, the applicant shall:

a. Install high-efficiency toilets (maximum 1.28 gpf), including dual-flush water closets, and high-efficiency urinals (maximum 0.5 gpf), including no-flush or waterless urinals, in all restrooms as appropriate.
b. Install restroom faucets with a maximum flow rate of 1.5 gallons per minute.
c. A separate water meter (or submeter), flow sensor, and master valve shutoff shall be installed for all landscape irrigation uses.

MM-18 Single-pass cooling equipment shall be strictly prohibited from use. Prohibition of such equipment shall be indicated on the building plans and incorporated into tenant lease agreements. (Single-pass cooling refers to the use of potable water to extract heat from process equipment, e.g. vacuum pump, ice machines, by passing the water through equipment and discharging the heated water to the sanitary wastewater system.)

MM-19 Unless otherwise required, and to the satisfaction of the Department of Building and Safety, the applicant shall:

a. Install no more than one showerhead per shower stall, having a flow rate no greater than 2.0 gallons per minute.
b. Install and utilize only high-efficiency clothes washers (water factor of 6.0 or less) in the project, if proposed to be provided in either individual units and/or in a common laundry room(s). If such appliance is to be furnished by a tenant, this requirement shall be incorporated into the lease agreement, and the applicant shall be responsible for ensuring compliance.
c. Install and utilize only high-efficiency Energy Star-rated dishwashers in the project, if proposed to be provided. If
such appliance is to be furnished by a tenant, this requirement shall be incorporated into the lease agreement, and the applicant shall be responsible for ensuring compliance.

18. **Construction Mitigation Conditions** - Prior to the issuance of a grading or building permit, or the recordation of the final map, the subdivider shall prepare and execute a Covenant and Agreement (Planning Department General Form CP-6770) in a manner satisfactory to the Planning Department, binding the subdivider and all successors to the following:

CM-1. That a sign be required on site clearly stating a contact/complaint telephone number that provides contact to a live voice, not a recording or voice mail, during all hours of construction, the construction site address, and the tract map number. **YOU ARE REQUIRED TO POST THE SIGN 7 DAYS BEFORE CONSTRUCTION IS TO BEGIN.**

a. Locate the sign in a conspicuous place on the subject site or structure (if developed) so that the public can easily read it. The sign must be sturdily attached to a wooden post if it will be freestanding.

b. Regardless of who posts the site, it is always the responsibility of the applicant to assure that the notice is firmly attached, legible, and remains in that condition throughout the entire construction period.

c. If the case involves more than one street frontage, post a sign on each street frontage involved. If a site exceeds five (5) acres in size, a separate notice of posting will be required for each five (5) acres, or portion thereof. Each sign must be posted in a prominent location.

CM-2. All unpaved demolition and construction areas shall be wetted at least twice daily during excavation and construction, and temporary dust covers shall be used to reduce dust emissions and meet SCAQMD District Rule 403. Wetting could reduce fugitive dust by as much as 50 percent.

CM-3. The owner or contractor shall keep the construction area sufficiently dampened to control dust caused by construction and hauling, and at all times provide reasonable control of dust caused by wind.

CM-4. All loads shall be secured by trimming, watering or other appropriate means to prevent spillage and dust.

CM-5. All materials transported off-site shall be either sufficiently watered or securely covered to prevent excessive amount of dust.
CM-6. All clearing, earth moving, or excavation activities shall be discontinued during periods of high winds (i.e., greater than 15 mph), so as to prevent excessive amounts of dust.

CM-7. General contractors shall maintain and operate construction equipment so as to minimize exhaust emissions. Trucks having no current hauling activity shall not idle but be turned off.

CM-8. The project shall comply with the City of Los Angeles Noise Ordinance Nos. 144,331 and 161,574, and any subsequent ordinances, which prohibit the emission or creation of noise beyond certain levels at adjacent uses unless technically infeasible.

CM-9. Construction and demolition shall be restricted to the hours of 7:00 am to 6:00 pm Monday through Friday, and 8:00 am to 6:00 pm on Saturday.

CM-10. Construction and demolition activities shall be scheduled so as to avoid operating several pieces of equipment simultaneously, which causes high noise levels.

CM-11. The project contractor shall use power construction equipment with state-of-the-art noise shielding and muffling devices.

CM-12. The project sponsor shall comply with the Noise Insulation Standards of Title 24 of the California Code Regulations, which insure an acceptable interior noise environment.

CM-13. Excavation and grading activities shall be scheduled during dry weather periods. If grading occurs during the rainy season (October 15 through April 1), construct diversion dikes to channel runoff around the site. Line channels with grass or roughened pavement to reduce runoff velocity.

CM-14. Incorporate appropriate erosion control and drainage devices to the satisfaction of the Building and Safety Department shall be incorporated, such as interceptor terraces, berms, vee-channels, and inlet and outlet structures, as specified by Section 91.7013 of the Building Code, including planting fast-growing annual and perennial grasses in areas where construction is not immediately planned. These will shield and bind the soil.

CM-15. Stockpiles and excavated soil shall be covered with secured tarps or plastic sheeting.
CM-16. All waste shall be disposed of properly. Use appropriately labeled recycling bins to recycle construction materials including: solvents, water-based paints, vehicle fluids, broken asphalt and concrete, wood, and vegetation. Non recyclable materials/wastes must be taken to an appropriate landfill. Toxic wastes must be discarded at a licensed regulated disposal site.

CM-17. Clean up leaks, drips and spills immediately to prevent contaminated soil on paved surfaces that can be washed away into the storm drains.

CM-18. Do not hose down pavement at material spills. Use dry cleanup methods whenever possible.

CM-19. Cover and maintain dumpsters. Place uncovered dumpsters under a roof or cover with tarps or plastic sheeting.

CM-20. Use gravel approaches where truck traffic is frequent to reduce soil compaction and limit the tracking of sediment into streets.

CM-21. Conduct all vehicle/equipment maintenance, repair, and washing away from storm drains. All major repairs are to be conducted off-site. Use drip pans or drop cloths to catch drips and spills.

CM-22. Only low- and non-VOC-containing paints, sealants, adhesives, and solvents shall be utilized in the construction of the project.

CM-23. Prior to the issuance of any permit for the demolition or alteration of the existing structure(s), the applicant shall provide a letter to the Department of Building and Safety from a qualified asbestos abatement consultant indicating that no Asbestos-Containing Materials (ACM) are present in the building. If ACMs are found to be present, it will need to be abated in compliance with the South Coast Air Quality Management District's Rule 1403 as well as all other applicable State and Federal rules and regulations.

CM-24. Prior to issuance of any permit for the demolition or alteration of the existing structure(s), a lead-based paint survey shall be performed to the written satisfaction of the Department of Building and Safety. Should lead-based paint materials be identified, standard handling and disposal practices shall be implemented pursuant to OSHA regulations.

CM-25. Fences shall be constructed around the site to minimize trespassing, vandalism, short-cut attractions and attractive nuisances.
CM-26 Prior to the issuance of any demolition or construction permit, the applicant shall provide a copy of the receipt or contract from a waste disposal company providing services to the project, specifying recycled waste service(s), to the satisfaction of the Department of Building and Safety. The demolition and construction contractor(s) shall only contract for waste disposal services with a company that recycles demolition and/or construction-related wastes.

CM-27 To facilitate on-site separation and recycling of demolition- and construction-related wastes, the contractor(s) shall provide temporary waste separation bins on-site during demolition and construction. These bins shall be emptied and the contents recycled accordingly as a part of the project's regular solid waste disposal program.

DEPARTMENT OF CITY PLANNING-STANDARD CONDOMINIUM CONDITIONS

C-1. That approval of this tract constitutes approval of model home uses, including a sales office and off-street parking. Where the existing zoning is (T) or (Q) for multiple residential use, no construction or use shall be permitted until the final map has recorded or the proper zone has been effectuated. If models are constructed under this tract approval, the following conditions shall apply:

1. Prior to recordation of the final map, the subdivider shall submit a plot plan for approval by the Division of Land Section of the Department of City Planning showing the location of the model dwellings, sales office and off-street parking. The sales office must be within one of the model buildings.

2. All other conditions applying to Model Dwellings under Section 12.22-A, 10 and 11 and Section 17.05-O of the LAMC shall be fully complied with satisfactory to the Department of Building and Safety.

C-2. Prior to the recordation of the final map, the subdivider shall pay or guarantee the payment of a park and recreation fee based on the latest fee rate schedule applicable. The amount of said fee to be established by the Advisory Agency in accordance with LAMC Section 17.12 and is to be paid and deposited in the trust accounts of the Park and Recreation Fund.

C-3. Prior to obtaining any grading or building permits before the recordation of the final map, a landscape plan, prepared by a licensed landscape architect, shall be submitted to and approved by the Advisory Agency in accordance with CP-6730.

In the event the subdivider decides not to request a permit before the recordation of the final map, a covenant and agreement satisfactory to the Advisory Agency guaranteeing the submission of such plan before obtaining any permit shall be recorded.
C-4. In order to expedite the development, the applicant may apply for a building permit for an apartment building. However, prior to issuance of a building permit for apartments, the registered civil engineer, architect or licensed land surveyor shall certify in a letter to the Advisory Agency that all applicable tract conditions affecting the physical design of the building and/or site have been included into the building plans. Such letter is sufficient to clear this condition. In addition, all of the applicable tract conditions shall be stated in full on the building plans and a copy of the plans shall be reviewed and approved by the Advisory Agency prior to submittal to the Department of Building and Safety for a building permit.

OR

If a building permit for apartments will not be requested, the project civil engineer, architect or licensed land surveyor must certify in a letter to the Advisory Agency that the applicant will not request a permit for apartments and intends to acquire a building permit for a condominium building(s). Such letter is sufficient to clear this condition.

BUREAU OF ENGINEERING - STANDARD CONDITIONS

S-1.  (a) That the sewerage facilities charge be deposited prior to recordation of the final map over all of the tract in conformance with Section 64.11.2 of the LAMC.

(b) That survey boundary monuments be established in the field in a manner satisfactory to the City Engineer and located within the California Coordinate System prior to recordation of the final map. Any alternative measure approved by the City Engineer would require prior submission of complete field notes in support of the boundary survey.

(c) That satisfactory arrangements be made with both the Water System and the Power System of the Department of Water and Power with respect to water mains, fire hydrants, service connections and public utility easements.

(d) That any necessary sewer, street, drainage and street lighting easements be dedicated. In the event it is necessary to obtain off-site easements by separate instruments, records of the Bureau of Right-of-Way and Land shall verify that such easements have been obtained. The above requirements do not apply to easements of off-site sewers to be provided by the City.

(e) That drainage matters be taken care of satisfactory to the City Engineer.
(f) That satisfactory street, sewer and drainage plans and profiles as required, together with a lot grading plan of the tract and any necessary topography of adjoining areas be submitted to the City Engineer.

(g) That any required slope easements be dedicated by the final map.

(h) That each lot in the tract complies with the width and area requirements of the Zoning Ordinance.

(i) That 1-foot future streets and/or alleys be shown along the outside of incomplete public dedications and across the termini of all dedications abutting unsubdivided property. The 1-foot dedications on the map shall include a restriction against their use of access purposes until such time as they are accepted for public use.

(j) That any 1-foot future street and/or alley adjoining the tract be dedicated for public use by the tract, or that a suitable resolution of acceptance be transmitted to the City Council with the final map.

(k) That no public street grade exceeds 15%.

(l) That any necessary additional street dedications be provided to comply with the Americans with Disabilities Act (ADA) of 1990.

S-2. That the following provisions be accomplished in conformity with the improvements constructed herein:

(a) Survey monuments shall be placed and permanently referenced to the satisfaction of the City Engineer. A set of approved field notes shall be furnished, or such work shall be suitably guaranteed, except where the setting of boundary monuments requires that other procedures be followed.

(b) Make satisfactory arrangements with the Department of Transportation with respect to street name, warning, regulatory and guide signs.

(c) All grading done on private property outside the tract boundaries in connection with public improvements shall be performed within dedicated slope easements or by grants of satisfactory rights of entry by the affected property owners.

(d) All improvements within public streets, private street, alleys and easements shall be constructed under permit in conformity with plans and specifications approved by the Bureau of Engineering.
(e) Any required bonded sewer fees shall be paid prior to recordation of the final map.

S-3. That the following improvements be either constructed prior to recordation of the final map or that the construction be suitably guaranteed:

(a) Construct on-site sewers to serve the tract as determined by the City Engineer.

(b) Construct any necessary drainage facilities.

(c) Install street lighting facilities to serve the tract as required by the Bureau of Street Lighting.

(d) Plant street trees and remove any existing trees within dedicated streets or proposed dedicated streets as required by the Urban Forestry Division of the Bureau of Street Maintenance. All street tree plantings shall be brought up to current standards. When the City has previously been paid for tree planting, the subdivider or contractor shall notify the Urban Forestry Division (213-485-5675) upon completion of construction to expedite tree planting.

(e) Repair or replace any off-grade or broken curb, gutter and sidewalk satisfactory to the City Engineer.

(f) Construct access ramps for the handicapped as required by the City Engineer.

(g) Close any unused driveways satisfactory to the City Engineer.

(h) Construct any necessary additional street improvements to comply with the Americans with Disabilities Act (ADA) of 1990.

(i) That the following improvements are either constructed prior to recordation of the final map or that the construction is suitably guaranteed:

a) Improve Fuller Avenue adjoining the subdivision by the construction of the following:

   (1) A concrete curb, a concrete gutter, and a 5-foot concrete sidewalk and landscaping of the parkway or a 10-foot full width concrete sidewalk with tree wells.

   (2) Suitable surfacing to join the existing pavements and to complete a 20-foot half roadway.
(3) Any necessary removal and reconstruction of existing improvements.

(4) The necessary transitions to join the existing improvements.

Any questions regarding this report should be directed to Mr. Georgic Avanesian of the Land Development Section, located at 201 North Figueroa Street, Suite 200, or by calling (213) 202-3484.

NOTES:

The Advisory Agency approval is the maximum number of units permitted under the tract action. However the existing or proposed zoning may not permit this number of units. Approval from Board of Public Works may be necessary before removal of any street trees in conjunction with the improvements in this tract map through Bureau of Street Services Urban Forestry Division.

Satisfactory arrangements shall be made with the Los Angeles Department of Water and Power, Power System, to pay for removal, relocation, replacement or adjustment of power facilities due to this development. The subdivider must make arrangements for the underground installation of all new utility lines in conformance with LAMC Section 17.05N.

The final map must record within 36 months of this approval, unless a time extension is granted before the end of such period.

The Advisory Agency hereby finds that this tract conforms to the California Water Code, as required by the Subdivision Map Act.

The subdivider should consult the Department of Water and Power to obtain energy saving design features which can be incorporated into the final building plans for the subject development. As part of the Total Energy Management Program of the Department of Water and Power, this no-cost consultation service will be provided to the subdivider upon his request.

FINDINGS OF FACT (CEQA)

The Department of City Planning issued Mitigated Negative Declaration No. ENV-2012-3442-MND on February 21, 2013. The Department found that potential negative impact could occur from the project’s implementation due to:

- Aesthetics (landscape, vandalism, signage, light, glare);
- Air Quality (construction, operational);
- Greenhouse Gases (emissions);
- Hazards and Hazardous Materials (toxic/hazardous construction materials);
- Hydrology and Water Quality (stormwater);
Land Use and Planning;
Noise (construction, operational);
Population and Housing (relocation, tenant displacement);
Public Services (fire, police, schools, street improvements);
Recreation;
Utilities (solid waste, water).

The Deputy Advisory Agency, certifies that Mitigated Negative Declaration No. ENV-2012-3442-MND reflects the independent judgment of the lead agency and determined that this project would not have a significant effect upon the environment provided the potential impacts identified above are mitigated to a less than significant level through implementation of Condition No(s). 6, 11, 13e, 13h, and 13i of the Tract's approval. Other identified potential impacts not mitigated by these conditions are mandatorily subject to existing City ordinances, (Sewer Ordinance, Grading Ordinance, Flood Plain Management Specific Plan, Xeriscape Ordinance, Stormwater Ordinance, etc.) which are specifically intended to mitigate such potential impacts on all projects.

The project site, as well as the surrounding area are presently developed with structures and do not provide a natural habitat for either fish or wildlife.

In accordance with Section 21081.6 of the Public Resources Code (AB 3180), the Deputy Advisory Agency has assured that the above identified mitigation measures will be implemented by requiring reporting and monitoring as specified in Condition No. 16.

The custodian of the documents or other material which constitute the record of proceedings upon which the Advisory Agency’s decision is based are located with the City of Los Angeles, Planning Department, 200 North Spring Street, Room 750, Los Angeles, CA 90012.

FINDINGS OF FACT (SUBDIVISION MAP ACT)

In connection with the approval of Tentative Tract Map No. 72131-CN, the Advisory Agency of the City of Los Angeles, pursuant to Sections 66473.1, 66474.60, .61 and .63 of the State of California Government Code (the Subdivision Map Act), makes the prescribed findings as follows:

(a) THE PROPOSED MAP WILL BE/IS CONSISTENT WITH APPLICABLE GENERAL AND SPECIFIC PLANS.

The adopted Hollywood Community Plan designates the subject property for Medium Residential land use with the corresponding zone of [Q]R3-1XL. The property contains approximately .0189 net acres (8,246 net square feet after required dedication) and is presently zoned [Q]R3-1XL. The proposed development of nine condominium units is allowable under the current adopted zone pursuant to the City’s Density Bonus Ordinance and the land use designation.
The project will provide much needed new market rate and affordable home ownership opportunities for the Brentwood-Pacific Palisades Community Plan area. The existing tenants will be provided with relocation assistance pursuant to the Los Angeles Housing Department's applicable ordinances.

The site is not subject to the Specific Plan for the Management of Flood Hazards (floodways, floodplains, mud prone areas, coastal high-hazard and flood-related erosion hazard areas).

Therefore, as conditioned, the proposed tract map is consistent with the intent and purpose of the applicable General and Specific Plans.

(b) THE DESIGN AND IMPROVEMENT OF THE PROPOSED SUBDIVISION ARE CONSISTENT WITH APPLICABLE GENERAL AND SPECIFIC PLANS.

Fuller Avenue is a Local Street dedicated to a 60-foot width at the project's street frontage. This project is not subject to any Specific Plan requirements. The proposed project will provide 17 parking spaces in conformance with the LAMC. As conditioned the design and improvements of the proposed project are consistent with the applicable General and Specific Plans.

(c) THE SITE IS PHYSICALLY SUITABLE FOR THE PROPOSED TYPE OF DEVELOPMENT.

The site is currently developed with three apartment units. It is one of the few under-improved properties in the vicinity. The development of this tract is an infill of an otherwise multiple-family neighborhood.

The site is level and is not located in a slope stability study area, high erosion hazard area, or a fault-rupture study zone.

(d) THE SITE IS PHYSICALLY SUITABLE FOR THE PROPOSED DENSITY OF DEVELOPMENT.

Adjacent land uses are residential in nature to the north, east, south and west are all zoned [Q]R3-1XL and are developed with two to four-story multi-family dwellings. The proposed project would provide an appropriately scaled development. The site currently contains a 3-unit apartment complex. The proposed project will comply with all LAMC requirements for parking, yards, and open space. As conditioned the proposed tract map is physically suitable for the proposed density of the development.
(e) THE DESIGN OF THE SUBDIVISION AND THE PROPOSED IMPROVEMENTS ARE NOT LIKELY TO CAUSE SUBSTANTIAL ENVIRONMENTAL DAMAGE OR SUBSTANTIALLY AND AVOIDABLY INJURE FISH OR WILDLIFE OR THEIR HABITAT.

The project site, as well as the surrounding area are presently developed with structures and do not provide a natural habitat for either fish or wildlife.

(f) THE DESIGN OF THE SUBDIVISION AND THE PROPOSED IMPROVEMENTS ARE NOT LIKELY TO CAUSE SERIOUS PUBLIC HEALTH PROBLEMS.

There appear to be no potential public health problems caused by the design or improvement of the proposed subdivision.

The development is required to be connected to the City's sanitary sewer system, where the sewage will be directed to the LA Hyperion Treatment Plant, which has been upgraded to meet Statewide ocean discharge standards. The Bureau of Engineering has reported that the proposed subdivision does not violate the existing California Water Code because the subdivision will be connected to the public sewer system and will have only a minor incremental impact on the quality of the effluent from the Hyperion Treatment Plant.

(g) THE DESIGN OF THE SUBDIVISION AND THE PROPOSED IMPROVEMENTS WILL NOT CONFLICT WITH EASEMENTS ACQUIRED BY THE PUBLIC AT LARGE FOR ACCESS THROUGH OR USE OF PROPERTY WITHIN THE PROPOSED SUBDIVISION.

No such easements are known to exist. Needed public access for roads and utilities will be acquired by the City prior to recordation of the proposed tract.

(h) THE DESIGN OF THE PROPOSED SUBDIVISION WILL PROVIDE, TO THE EXTENT FEASIBLE, FOR FUTURE PASSIVE OR NATURAL HEATING OR COOLING OPPORTUNITIES IN THE SUBDIVISION. (REF. SECTION 66473.1)

In assessing the feasibility of passive or natural heating or cooling opportunities in the proposed subdivision design, the applicant has prepared and submitted materials which consider the local climate, contours, configuration of the parcel(s) to be subdivided and other design and improvement requirements.

Providing for passive or natural heating or cooling opportunities will not result in reducing allowable densities or the percentage of a lot which may be occupied by a building or structure under applicable planning and zoning in effect at the time the tentative map was filed.
The lot layout of the subdivision has taken into consideration the maximizing of the north/south orientation.

The topography of the site has been considered in the maximization of passive or natural heating and cooling opportunities.

In addition, prior to obtaining a building permit, the subdivider shall consider building construction techniques, such as overhanging eaves, location of windows, insulation, exhaust fans; planting of trees for shade purposes and the height of the buildings on the site in relation to adjacent development.

These findings shall apply to both the tentative and final maps for Tentative Tract Map No. 72131-CN.

Note: If you wish to file an appeal, it must be filed within 10 calendar days from the decision date as noted in this letter. For an appeal to be valid to the City Planning Commission, it must be accepted as complete by the City Planning Department and appeal fees paid, prior to expiration of the above 10-day time limit. Such appeal must be submitted on Master Appeal Form No. CP-7769 at the Department's Public Offices, located at:

Figueroa Plaza
201 N. Figueroa St., 4th Floor
Los Angeles, CA 90012
213 482-7077

Marvin Braude San Fernando Valley
Constituent Service Center
6262 Van Nuys Blvd., Room 251
Van Nuys, CA 91401
818 374-5050

Forms are also available on-line at http://cityplanning.lacity.org/
If you seek judicial review of any decision of the City pursuant to California Code of Civil Procedure Section 1094.5, the petition for writ of mandate pursuant to that section must be filed no later than the 90th day following the date on which the City's decision became final pursuant to California Code of Civil Procedure Section 1094.6. There may be other time limits which also affect your ability to seek judicial review.

If you have any questions, please call Development Services Center staff at (213) 482-7077.
