

ORDINANCE NO. 183194

An ordinance amending Section 12.04 of the Los Angeles Municipal Code by amending the zoning map.

THE PEOPLE OF THE CITY OF LOS ANGELES DO ORDAIN AS FOLLOWS:

Section __. Section 12.04 of the Los Angeles Municipal Code is hereby amended by changing the zone classifications of property shown upon a portion of the Zoning Map incorporated therein and made a part of Article 2, Chapter 1 of the LAMC, so that such portion of the Zoning Map shall conform to the zoning on the map attached hereto and incorporated herein by this reference.

 **(T)(Q)C2-2**

C.M. 135 B 197	CPC-2013-0551-ZC-CUB-CU-ZAA-SPR
----------------	---------------------------------

AAI 

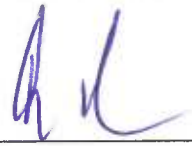

061214

Section __. The City Clerk shall certify to the passage of this ordinance and have it published in accordance with Council policy, either in a daily newspaper circulated in the City of Los Angeles or by posting for ten days in three public places in the City of Los Angeles: one copy on the bulletin board located at the Main Street entrance to the Los Angeles City Hall; one copy on the bulletin board located at the Main Street entrance to the Los Angeles City Hall East; and one copy on the bulletin board located at the Temple Street entrance to the Los Angeles County Hall of Records.

I hereby certify that the foregoing ordinance was introduced at the Council of the City of Los Angeles, by a majority vote of all its members, at the meeting of AUG 20 2014.

Holly L. Wolcott, City Clerk

By  Deputy

Approved AUG 27 2014

 Mayor

Pursuant to Section 558 of the City Charter, the City Planning Commission on May 22, 2014, recommended this ordinance be adopted by the City Council.

James K. Williams, Commission Executive Assistant II
City Planning Commission

File No. 14-1038

(Q) QUALIFIED CONDITIONS OF APPROVAL

Pursuant to Section 12.32 G of the Municipal Code, the following limitations are hereby imposed upon the use of the subject property, subject to the "Q" Qualified classification.

A. Entitlement Conditions

1. **Site Plan.** The use and development of the property shall be in substantial conformance with the Plot plan and elevations marked **Exhibit A**, dated **May 22, 2014**, and attached to the administrative file. Prior to the issuance of building permits, revised, detailed development plans that show compliance with all conditions of approval, including complete landscape and irrigation plans, shall be submitted to the Department of City Planning Department for review.
2. **Use.** Use of the subject property shall be limited to the use and area provisions of the C2-2 zone; hotel and commercial uses shall be permitted.
3. **Height.** The building shall be limited to a height of 75 feet. Any structures on the roof, such as air condition units and other equipment, shall be fully screened from view of any abutting properties.
4. **Floor Area Ratio (FAR).** FAR shall not exceed 4.2:1. The total floor area of non-residential, ground-floor retail commercial use shall not exceed 1,564 square feet, as defined by Section 12.03 of the LAMC.
5. **Residential Density.** Not more than 75 guest rooms and 7 apartment units may be constructed on the property.
6. **Driveway.** The site design shall be limited to one driveway with a maximum width of 28 feet along the building frontage on Catalina Street. Revised plans shall include elevations that depict the frontage with one driveway, and indicate transparency or other pedestrian-oriented treatment that will be implemented to replace the building driveway entrance.
7. **Parking.** Pursuant to LAMC Section 12.21A4(x)(3) the Project need not provide more than 6 commercial parking spaces, or two parking spaces for every one thousand square feet of combined gross floor area of commercial use. Parking for hotel units and apartment units shall be provided subject to LAMC Section 12.21.A.4.
8. **Landscape Plan.** All open areas not used for buildings, driveways, parking areas, recreational facilities or walks shall be attractively landscaped and maintained in accordance with a landscape plan, including an automatic irrigation plan, prepared by a licensed landscape architect to the satisfaction of the Department of City Planning Department.
9. **Window Transparency.** A note shall be added to the Project Elevations to indicate that all ground floor windows shall be comprised of non-reflective, transparent glass. Any at-grade parking uses shall not be visible from the exterior of the building. Architectural treatments, or other design features shall be used to ensure the parking is not visible from the exterior of the building.

10. **Pedestrian walkways.** Clearly marked pedestrian access-ways shall be integrated into the site design and connect to the commercial area. The entryway shall incorporate enhanced paving treatment to create a safety buffer between the driveway area and the pedestrian entrance to the hotel and restaurant patio.
11. **Building Materials.** A note shall be added to the Project Elevations to indicate that the corrugated metal materials incorporated into the design shall be of a non-reflective material.
12. **Ground Level Pedestrian Access.** The doors for pedestrian access along Catalina Street shall remain open during business hours.
13. **Loading.** The Project shall be allowed a loading space height of height of 11 feet and 6 inches. The loading area shall be secured by gates, fencing, or other appropriate security measure and it shall be maintained free of any trash or debris for the life of the Project.
14. **Refuse/recycling area.** Details shall be provided on the method of enclosure for the refuse/recycling areas at the time of final plan sign off. The refuse/recycling area shall be secured with an enclosure that fully screens the view of the refuse/recycling area. It shall be constructed in a style similar to that of the main building.
15. **Outdoor Dining.** Final architectural plans shall indicate appropriate buffers and light deflection such as screening, landscaping, and walls as necessary, to ensure that no noise or lighting disturbance would be created on neighboring properties as a result of outdoor dining located on the ground floor. No up-lighting shall be utilized.
16. **Street Tree Maintenance.** The applicant shall maintain the existing street trees in the Catalina Street frontage parkway for the life of the project. If they cannot be maintained in good condition, new trees shall be planted in their place to the satisfaction of the City's Urban Forestry Division of the Bureau of Street Services, Department of Public Works.

B. Environmental Conditions

17. **Aesthetics (Landscape Plan).** All open areas not used for buildings, driveways, parking areas, recreational facilities or walks shall be attractively landscaped and maintained in accordance with a landscape plan and an automatic irrigation plan, prepared by a licensed Landscape Architect and to the satisfaction of the decision maker.
18. **Aesthetics (Retaining Walls less than 8 feet in Height).** Retaining walls that can be viewed from the adjacent public right(s)-of-way shall incorporate one or more of the following to minimize their visibility: clinging vines, espaliered plants, or other vegetative screening; decorative masonry, or other varied and textured façade; or utilize a combination of methods. The method of compliance with this measure shall be noted on any required landscape plan.
19. **Aesthetics (Vandalism).**
 - a. Every building, structure, or portion thereof, shall be maintained in a safe and sanitary condition and good repair, and free from, debris, rubbish, garbage, trash, overgrown vegetation or other similar material, pursuant to Municipal Code Section 91.8104.
 - b. The exterior of all buildings and fences shall be free from graffiti when such graffiti is visible from a street or alley, pursuant to Municipal Code Section 91.8104.15.

20. Aesthetics (Signage)

- a. On-site signs shall be limited to the maximum allowable under the Municipal Code.
- b. Multiple temporary signs in store windows and along building walls are not permitted.

21. Aesthetics (Light). Outdoor lighting shall be designed and installed with shielding, such that the light source cannot be seen from adjacent residential properties or the public right-of-way. Up-lighting shall not be utilized.

22. Air Pollution (Demolition, Grading, and Construction Activities)

- a. All unpaved demolition and construction areas shall be wetted at least twice daily during excavation and construction, and temporary dust covers shall be used to reduce dust emissions and meet SCAQMD District Rule 403. Wetting could reduce fugitive dust by as much as 50 percent.
- b. The construction area shall be kept sufficiently dampened to control dust caused by grading and hauling, and at all times provide reasonable control of dust caused by wind.
- c. All clearing, earth moving, or excavation activities shall be discontinued during periods of high winds (i.e., greater than 15 mph), so as to prevent excessive amounts of dust.
- d. All dirt/soil loads shall be secured by trimming, watering or other appropriate means to prevent spillage and dust.
- e. All dirt/soil materials transported off-site shall be either sufficiently watered or securely covered to prevent excessive amount of dust.
- f. General contractors shall maintain and operate construction equipment so as to minimize exhaust emissions.
- g. Trucks having no current hauling activity shall not idle but be turned off.

23. Air Quality (Operational). The construction contractor shall choose low- or no- VOC indoor paints. VOC concentrations (grams/liter) of interior paints should equal to or less than those specified by the EPA's Environmentally Preferable Purchasing Program as follows:

- i. Interior latex coatings: Flat, 100 grams/liter; Non-flat, 150 grams/liter
- ii. Interior oil-based paints: 380 grams/liter

24. Objectionable Odors (Commercial Trash Receptacles)

- a. Open trash receptacles shall be located a minimum of 50 feet from the property line of any residential zone or use.
- b. Trash receptacles located within an enclosed building or structure shall not be required to observe this minimum buffer.

25. Tree Removal (Public Right-of-Way)

- a. Removal of trees in the public right-of-way requires approval by the Board of Public Works.
- b. The required Tree Report shall include the location, size, type, and condition of all existing trees in the adjacent public right-of-way and shall be submitted for review and approval by the Urban Forestry Division of the Bureau of Street Services, Department of Public Works (213-847-3077).
- c. The plan shall contain measures recommended by the tree expert for the preservation of as many trees as possible. Mitigation measures such as replacement by a minimum of 24-inch box trees in the parkway and on the site,

- on a 1:1 basis, shall be required for the unavoidable loss of significant (8-inch or greater trunk diameter, or cumulative trunk diameter if multi-trunked, as measured 54 inches above the ground) trees in the public right-of-way.
- d. All trees in the public right-of-way shall be provided per the current Urban Forestry Division standards.

26. Cultural Resources (Archaeological)

- a. If any archaeological materials are encountered during the course of project development, all further development activity shall halt and:
 - i. The services of an archaeologist shall then be secured by contacting the South Central Coastal Information Center (657-278-5395) located at California State University Fullerton, or a member of the Society of Professional Archaeologist (SOPA) or a SOPA-qualified archaeologist, who shall assess the discovered material(s) and prepare a survey, study or report evaluating the impact.
 - ii. The archaeologist's survey, study or report shall contain a recommendation(s), if necessary, for the preservation, conservation, or relocation of the resource.
 - iii. The applicant shall comply with the recommendations of the evaluating archaeologist, as contained in the survey, study or report.
- b. Project development activities may resume once copies of the archaeological survey, study or report are submitted to:
SCCIC Department of Anthropology
McCarthy Hall 477
CSU Fullerton
800 North State College Boulevard
Fullerton, CA 92834
- c. Prior to the issuance of any building permit, the applicant shall submit a letter to the case file indicating what, if any, archaeological reports have been submitted, or a statement indicating that no material was discovered.
- d. A covenant and agreement binding the applicant to this condition shall be recorded prior to issuance of a grading permit.

27. Cultural Resources (Paleontological)

- a. If any paleontological materials are encountered during the course of project development, all further development activities shall halt and:
 - i. The services of a paleontologist shall then be secured by contacting the Center for Public Paleontology - USC, UCLA, California State University Los Angeles, California State University Long Beach, or the Los Angeles County Natural History Museum - who shall assess the discovered material(s) and prepare a survey, study or report evaluating the impact.
 - ii. The paleontologist's survey, study or report shall contain a recommendation(s), if necessary, for the preservation, conservation, or relocation of the resource.
 - iii. The applicant shall comply with the recommendations of the evaluating paleontologist, as contained in the survey, study or report.
 - iv. Project development activities may resume once copies of the paleontological survey, study or report are submitted to the Los Angeles County Natural History Museum.
- b. Prior to the issuance of any building permit, the applicant shall submit a letter to the case file indicating what, if any, paleontological reports have been submitted, or a statement indicating that no material was discovered.
- c. A covenant and agreement binding the applicant to this condition shall be recorded prior to issuance of a grading permit.

28. Cultural Resources (Human Remains)

Environmental impacts may result from project implementation due to discovery of unrecorded human remains.

- In the event that human remains are discovered during excavation activities, the following procedure shall be observed:
 - i. Stop immediately and contact the County Coroner:

1104 N. Mission Road
Los Angeles, CA 90033
323-343-0512 (8 a.m. to 5 p.m. Monday through Friday) or
323-343-0714 (After Hours, Saturday, Sunday, and Holidays)
 - ii. The coroner has two working days to examine human remains after being notified by the responsible person. If the remains are Native American, the Coroner has 24 hours to notify the Native American Heritage Commission.
 - iii. The Native American Heritage Commission will immediately notify the person it believes to be the most likely descendent of the deceased Native American.
 - iv. The most likely descendent has 48 hours to make recommendations to the owner, or representative, for the treatment or disposition, with proper dignity, of the human remains and grave goods.
 - v. If the descendent does not make recommendations within 48 hours the owner shall reinter the remains in an area of the property secure from further disturbance, or;
 - vi. If the owner does not accept the descendant's recommendations, the owner or the descendent may request mediation by the Native American Heritage Commission.
- *Discuss and confer* means the meaningful and timely discussion careful consideration of the views of each party.

29. Seismic. The design and construction of the Project shall conform to the California Building Code seismic standards as approved by the Department of Building and Safety.

30. Geotechnical Report

- a. Prior to the issuance of grading or building permits, the applicant shall submit a geotechnical report, prepared by a registered civil engineer or certified engineering geologist, to the Department of Building and Safety, for review and approval. The geotechnical report shall assess potential consequences of any soil strength loss, estimation of settlement, lateral movement or reduction in foundation soil-bearing capacity, and discuss mitigation measures that may include building design consideration. Building design considerations shall include, but are not limited to: ground stabilization, selection of appropriate foundation type and depths, selection of appropriate structural systems to accommodate anticipated displacements or any combination of these measures.
- b. The Project shall comply with the conditions contained within the Department of Building and Safety's Geology and Soils Report Approval Letter for the proposed project, and as it may be subsequently amended or modified.

31. Erosion/Grading/Short-Term Construction Impacts

- a. The applicant shall provide a staked signage at the site with a minimum of 3-inch lettering containing contact information for the Senior Street Use Inspector (Department of Public Works), the Senior Grading Inspector (LADBS) and the hauling or general contractor.

- b. Chapter IX, Division 70 of the Los Angeles Municipal Code addresses grading, excavations, and fills. All grading activities require grading permits from the Department of Building and Safety. Additional provisions are required for grading activities within Hillside areas. The application of BMPs includes but is not limited to the following mitigation measures:
- Excavation and grading activities shall be scheduled during dry weather periods. If grading occurs during the rainy season (October 15 through April 1), diversion dikes shall be constructed to channel runoff around the site. Channels shall be lined with grass or roughened pavement to reduce runoff velocity.
 - Stockpiles, excavated, and exposed soil shall be covered with secured tarps, plastic sheeting, erosion control fabrics, or treated with a bio-degradable soil stabilizer.

32. Explosion/Release (Methane Gas)

- a. All commercial, industrial, and institutional buildings shall be provided with an approved Methane Control System, which shall include these minimum requirements; a vent system and gas-detection system which shall be installed in the basements or the lowest floor level on grade, and within underfloor space of buildings with raised foundations. The gas-detection system shall be designed to automatically activate the vent system when an action level equal to 25% of the Lower Explosive Limit (LEL) methane concentration is detected within those areas.
- b. All commercial, industrial, institutional and multiple residential buildings covering over 50,000 square feet of lot area or with more than one level of basement shall be independently analyzed by a qualified engineer, as defined in Section 91.7102 of the Municipal Code, hired by the building owner. The engineer shall investigate and recommend mitigation measures which will prevent or retard potential methane gas seepage into the building. In addition to the other items listed in this section, the owner shall implement the engineer's design recommendations subject to Department of Building and Safety and Fire Department approval.
- c. All multiple residential buildings shall have adequate ventilation as defined in Section 91.7102 of the Municipal Code of a gas-detection system installed in the basement or on the lowest floor level on grade, and within the underfloor space in buildings with raised foundations.
- d. All single-family dwellings with basements shall have a gas detection system which is periodically calibrated and maintained in proper operating condition in accordance with manufacturer's installation and maintenance specifications.

33. Stormwater Pollution (Demolition, Grading, and Construction Activities)

- a. Sediment carries with it other work-site pollutants such as pesticides, cleaning solvents, cement wash, asphalt, and car fluids that are toxic to sea life.
- b. Leaks, drips and spills shall be cleaned up immediately to prevent contaminated soil on paved surfaces that can be washed away into the storm drains.
- c. All vehicle/equipment maintenance, repair, and washing shall be conducted away from storm drains. All major repairs shall be conducted off-site. Drip pans or drop clothes shall be used to catch drips and spills.
- d. Pavement shall not be hosed down at material spills. Dry cleanup methods shall be used whenever possible.

- e. Dumpsters shall be covered and maintained. Uncovered dumpsters shall be placed under a roof or be covered with tarps or plastic sheeting.

34. Increased Noise Levels (Demolition, Grading, and Construction Activities)

- a. The Project shall comply with the City of Los Angeles Noise Ordinance No. 144,331 and 161,574, and any subsequent ordinances, which prohibit the emission or creation of noise beyond certain levels at adjacent uses unless technically infeasible.
- b. Construction and demolition shall be restricted to the hours of 7:00 am to 6:00 pm Monday through Friday, and 8:00 am to 6:00 pm on Saturday.
- c. Demolition and construction activities shall be scheduled so as to avoid operating several pieces of equipment simultaneously, which causes high noise levels.
- d. The Project contractor shall use power construction equipment with state-of-the-art noise shielding and muffling devices.

35. Increased Noise Levels (Parking Structure Ramps)

- a. Concrete, not metal, shall be used for construction of parking ramps.
- b. The interior ramps shall be textured to prevent tire squeal at turning areas.
- c. Parking lots located adjacent to residential buildings shall have a solid decorative wall adjacent to the residential.

36. Increased Noise Levels (Mixed-Use Development) Wall and floor-ceiling assemblies separating commercial tenant spaces, residential units, and public places, shall have a Sound Transmission Coefficient (STC) value of at least 50, as determined in accordance with ASTM E90 and ASTM E413.

37. Public Services (Fire). The following recommendations of the Fire Department relative to fire safety shall be incorporated into the building plans, which includes the submittal of a plot plan for approval by the Fire Department either prior to the recordation of a final map or the approval of a building permit. The plot plan shall include the following minimum design features: fire lanes, where required, shall be a minimum of 20 feet in width; all structures must be within 300 feet of an approved fire hydrant, and entrances to any dwelling unit or guest room shall not be more than 150 feet in distance in horizontal travel from the edge of the roadway of an improved street or approved fire lane.

38. Public Services (Police – Demolition/Construction Sites) Fences shall be constructed around the site to minimize trespassing, vandalism, short-cut attractions and attractive nuisances.

39. Public Services (Police). The plans shall incorporate the design guidelines relative to security, semi-public and private spaces, which may include but not be limited to access control to building, secured parking facilities, walls/fences with key systems, well-illuminated public and semi-public space designed with a minimum of dead space to eliminate areas of concealment, location of toilet facilities or building entrances in high-foot traffic areas, and provision of security guard patrol throughout the Project site if needed. Please refer to "Design Out Crime Guidelines: Crime Prevention Through Environmental Design", published by the Los Angeles Police Department. Contact the Community Relations Division, located at 100 W. 1st Street, #250, Los Angeles, CA 90012; (213) 486-6000. These measures shall be approved by the Police Department prior to the issuance of building permits.

40. Public Services (Construction Activity Near Schools)

- a. The developer and contractors shall maintain ongoing contact with administrator of The Robert F. Kennedy Community Schools. The administrative offices shall be contacted when demolition, grading and construction activity begin on the Project site so that students and their parents will know when such activities are to occur. The developer shall obtain school walk and bus routes to the schools from either the administrators or from the LAUSD's Transportation Branch (323)342-1400 and guarantee that safe and convenient pedestrian and bus routes to the school be maintained.
- b. The developer shall install appropriate traffic signs around the site to ensure pedestrian and vehicle safety.
- c. There shall be no staging or parking of construction vehicles, including vehicles to transport workers on any of the streets adjacent to the school.
- d. Due to noise impacts on the schools, no construction vehicles or haul trucks shall be staged or idled on these streets during school hours.

41. Public Services (Schools affected by Haul Route)

- a. LADBS shall assign specific haul route hours of operation based upon The Robert F. Kennedy Community Schools hours of operation.
- b. Haul route scheduling shall be sequenced to minimize conflicts with pedestrians, school buses and cars at the arrival and dismissal times of the school day. Haul route trucks shall not be routed past the school during periods when school is in session especially when students are arriving or departing from the campus.

42. Increased Vehicle Trips/Congestion. An investigation and analysis conducted by the Department of Transportation has identified significant project-related traffic impacts which can be mitigated to less than significant level by the following measure: Implementing measure(s) detailed in said Department's communication to the Planning Department dated February 7, 2013 and June 25, 2009 and attached shall be complied with. Such report and mitigation measure(s) are incorporated herein by reference.

43. Utilities (Local Water Supplies - Landscaping)

- a. The Project shall comply with Ordinance No. 170,978 (Water Management Ordinance), which imposes numerous water conservation measures in landscape, installation, and maintenance (e.g, use drip irrigation and soak hoses in lieu of sprinklers to lower the amount of water lost to evaporation and overspray, set automatic sprinkler systems to irrigate during the early morning or evening hours to minimize water loss due to evaporation, and water less in the cooler months and during the rainy season).
- b. In addition to the requirements of the Landscape Ordinance, the landscape plan shall incorporate the following:
 - c. Weather-based irrigation controller with rain shutoff
 - d. Matched precipitation (flow) rates for sprinkler heads
 - e. Drip/microspray/subsurface irrigation where appropriate
 - f. Minimum irrigation system distribution uniformity of 75 percent
 - g. Proper hydro-zoning, turf minimization and use of native/drought tolerant plan materials
 - h. Use of landscape contouring to minimize precipitation runoff
 - i. A separate water meter (or submeter), flow sensor, and master valve shutoff shall be installed for existing and expanded irrigated landscape areas totaling 5,000 sf. and greater.

44. Utilities (Local Water Supplies - All New Construction)

- a. If conditions dictate, the Department of Water and Power may postpone new water connections for this project until water supply capacity is adequate.
- b. Install high-efficiency toilets (maximum 1.28 gpf), including dual-flush water closets, and high-efficiency urinals (maximum 0.5 gpf), including no-flush or waterless urinals, in all restrooms as appropriate.
- c. Install restroom faucets with a maximum flow rate of 1.5 gallons per minute.
- d. A separate water meter (or submeter), flow sensor, and master valve shutoff shall be installed for all landscape irrigation uses.
- e. Single-pass cooling equipment shall be strictly prohibited from use. Prohibition of such equipment shall be indicated on the building plans and incorporated into tenant lease agreements. (Single-pass cooling refers to the use of potable water to extract heat from process equipment, e.g. vacuum pump, ice machines, by passing the water through equipment and discharging the heated water to the sanitary wastewater system.)

45. Utilities (Local Water Supplies - New Residential)

- a. Install no more than one showerhead per shower stall, having a flow rate no greater than 2.0 gallons per minute.
- b. Install and utilize only high-efficiency clothes washers (water factor of 6.0 or less) in the Project, if proposed to be provided in either individual units and/or in a common laundry room(s). If such appliance is to be furnished by a tenant, this requirement shall be incorporated into the lease agreement, and the applicant shall be responsible for ensuring compliance.
- c. Install and utilize only high-efficiency Energy Star-rated dishwashers in the Project, if proposed to be provided. If such appliance is to be furnished by a tenant, this requirement shall be incorporated into the lease agreement, and the applicant shall be responsible for ensuring compliance.

46. Utilities (Local Water Supplies - Restaurant)

- a. Install/retrofit high-efficiency toilets (maximum 1.28 gpf), including dual-flush water closets, and high-efficiency urinals (maximum 0.5 gpf), including no-flush or waterless urinals, in all restrooms as appropriate.
- b. Install/retrofit restroom faucets with a maximum flow rate of 1.5 gallons per minute.
- c. Install/retrofit and utilize only restroom faucets of a self-closing design.
- d. Install and utilize only high-efficiency Energy Star-rated dishwashers in the Project, if proposed to be provided. If such appliance is to be furnished by a tenant, this requirement shall be incorporated into the lease agreement, and the applicant shall be responsible for ensuring compliance.
- e. Single-pass cooling equipment shall be strictly prohibited from use. Prohibition of such equipment shall be indicated on the building plans and incorporated into tenant lease agreements. (Single-pass cooling refers to the use of potable water to extract heat from process equipment, e.g. vacuum pump, ice machines, by passing the water through equipment and discharging the heated water to the sanitary wastewater system.)

47. Utilities (Solid Waste Recycling)

- a. (*Operational*) Recycling bins shall be provided at appropriate locations to promote recycling of paper, metal, glass, and other recyclable material. These bins shall be emptied and recycled accordingly as a part of the Project's regular solid waste disposal program.
- b. (*Construction/Demolition*) Prior to the issuance of any demolition or construction permit, the applicant shall provide a copy of the receipt or contract from a waste

disposal company providing services to the Project, specifying recycled waste service(s), to the satisfaction of the Department of Building and Safety. The demolition and construction contractor(s) shall only contract for waste disposal services with a company that recycles demolition and/or construction-related wastes.

48. Utilities (Solid Waste Recycling)

To facilitate on-site separation and recycling of demolition- and construction-related wastes, the contractor(s) shall provide temporary waste separation bins on-site during demolition and construction. These bins shall be emptied and the contents recycled accordingly as a part of the Project's regular solid waste disposal program.

Administrative Conditions of Approval

1. **Final Plans.** Prior to the issuance of any building permits for the Project by the Department of Building and Safety, the applicant shall submit all final construction plans that are awaiting issuance of a building permit by the Department of Building and Safety for final review and approval by the Department of City Planning. All plans that are awaiting issuance of a building permit by the Department of Building and Safety shall be stamped by Department of City Planning staff "Final Plans". A copy of the Final Plans, supplied by the applicant, shall be retained in the subject case file.
2. **Notations on Plans.** Plans submitted to the Department of Building and Safety, for the purpose of processing a building permit application shall include all of the Conditions of Approval herein attached as a cover sheet, and shall include any modifications or notations required herein.
3. **Approval, Verification and Submittals.** Copies of any approvals, guarantees or verification of consultations, review of approval, plans, etc., as may be required by the subject conditions, shall be provided to the Department of City Planning prior to clearance of any building permits, for placement in the subject file.
4. **Code Compliance.** Use, area, height, and yard regulations of the zone classification of the subject property shall be complied with, except where granted conditions differ herein.
5. **Department of Building and Safety.** The granting of this determination by the Director of Planning does not in any way indicate full compliance with applicable provisions of the Los Angeles Municipal Code Chapter IX (Building Code). Any corrections and/or modifications to plans made subsequent to this determination by a Department of Building and Safety Plan Check Engineer that affect any part of the exterior design or appearance of the Project as approved by the Director, and which are deemed necessary by the Department of Building and Safety for Building Code compliance, shall require a referral of the revised plans back to the Department of City Planning for additional review and sign-off prior to the issuance of any permit in connection with those plans.
6. **Enforcement.** Compliance with these conditions and the intent of these conditions shall be to the satisfaction of the Department of City Planning.
7. **Expiration.** In the event that this grant is not utilized within three years of its effective date (the day following the last day that an appeal may be filed), the grant shall be considered null and void. Issuance of a building permit, and the initiation of, and diligent

continuation of, construction activity shall constitute utilization for the purposes of this grant.

8. **Covenant.** Prior to the issuance of any permits relative to this matter, an agreement concerning all of the information contained in these conditions shall be recorded by the property owner in the County Recorder's Office. The agreement shall run with the land and shall be binding on any subsequent owners, heir, or assigns. Further, the agreement must be submitted to the Planning Department for approval before being recorded. After recordation, a Certified Copy bearing the Recorder's number and date must be given to the City Planning Department for attachment to the subject file.
9. **Indemnification.** The applicant shall defend, indemnify and hold harmless the City, its agents, officers, or employees from any claim, action, or proceeding against the City or its agents, officers, or employees relating to or to attack, set aside, void or annul this approval which action is brought within the applicable limitation period. The City shall promptly notify the applicant of any claim, action, or proceeding and the City shall cooperate fully in the defense. If the City fails to promptly notify the applicant of any claim action or proceeding, or if the City fails to cooperate fully in the defense, the applicant shall not thereafter be responsible to defend, indemnify, or hold harmless the City.

DECLARATION OF POSTING ORDINANCE

I, MARIA VIZCARRA, state as follows: I am, and was at all times hereinafter mentioned, a resident of the State of California, over the age of eighteen years, and a Deputy City Clerk of the City of Los Angeles, California.

Ordinance No. 183194 – Zone change for 621-631 South Catalina Avenue – CPC-2013-0551-ZC-CUB-CU-ZAA-SPR - a copy of which is hereto attached, was finally adopted by the Los Angeles City Council on **August 20, 2014**, and under the direction of said City Council and the City Clerk, pursuant to Section 251 of the Charter of the City of Los Angeles and Ordinance No. 172959, on **August 28, 2014** I posted a true copy of said ordinance at each of the three public places located in the City of Los Angeles, California, as follows: 1) one copy on the bulletin board located at the Main Street entrance to the Los Angeles City Hall; 2) one copy on the bulletin board located at the Main Street entrance to the Los Angeles City Hall East; 3) one copy on the bulletin board located at the Temple Street entrance to the Los Angeles County Hall of Records.

Copies of said ordinance were posted conspicuously beginning on **August 28, 2014** and will be continuously posted for ten or more days.

I declare under penalty of perjury that the foregoing is true and correct.

Signed this **28th** day of **August, 2014** at Los Angeles, California.

Maria Vizcarra, Deputy City Clerk

Ordinance Effective Date: **October 7, 2014**

Council File No. **14-1038**
