Comments for Public Posting: Please renew LAMC 85.02. Street camping is a complete abuse of tax paying residents. They steal my water, threaten us, leave garbage and clog up our streets. The abuse you allow the homeless to inflict on Venice is abhorrent. I have had my dog poisoned in a robbery, had mail and packages stolen more than once, had my life threatened, had my gate beaten down, water stolen so often i had to disconnect my own hose, had my tires slashed. If you are not going to even pretend to serve Venice, then it is time to refund half our property taxes so we can pay for security. We had a terrible incident recently--truly violent-and when i called the police they said they had the address. It was really bad and all they wanted to know was if it was a "transient." And then they refused to send help. The Mayor and City Council are failing us to an alarming degree. There are more than 2 solutions--you either think doing nothing or forcing us to do everything is the only way. There are properties where the people who refuse to work or contribute can go--outside of town in old industrial areas. At the least--for now--at least renew this valuable law and offer a sliver of protection. Meanwhile--perhaps you should be going out on human waste and needle clean ups. you should be out strolling the ludicrous camps. You should see what it is you are making us deal with daily. Most of us are sick of the crime you are encouraging. Bonin is actually working to destroy Venice for reasons i cannot even understand. Is there anyone at all who cares about those of us forced to pay your salary? Is there anyone who cares that Garcetti and Bonin are inviting homeless to Venice and then letting them run roughshod over us? Is there anyone who will work with the police to actually deal with the crime from Bonin's failures? At least stop the camping in cars!!! Thank you. K. Kind Venice CA

Comments for Public Posting: I'm writing to ask that you please reinstate LAMC 85.02 and continue the ban on car camping. Our streets are overrun with people living in vehicles that take up public parking, trash our streets, potentially defecate on our sidewalks and threaten the safety of our neighborhoods and homes. Not to mention the environmental impact of the trash and hazardous waste they put down the storm drains which flows right into our ocean. Please do what's right for the people who live here and pay rent/mortgage and taxes. We are already oversaturated with transients and we need laws that protect our streets and neighborhoods. This needs to remain permanent as well instead of having to renew it year after year. Sincerely, Carol Reynes

Comments for Public Posting: I'm writing to ask that you please reinstate LAMC 85.02 and continue the ban on car camping. Most oversized vehicles (if not all) near my home have not moved in months and are taking up valuable public parking spaces which are few in Venice. One vehicle on Lincoln has a wheel off its axle and can't be moved. A vehicle on rose outside of Whole Foods has a hose that empties its sewage into the storm drain. The parking restrictions should be reinstated and be permanent for the safety, cleanliness and fairness to local residents and visitors who need to park. Thank you.

Comments for Public Posting: Longtime homeowner and full-time resident in Venice. Vehicle dwelling brings unsafe and unsanitary conditions for everyone. On the block that I live in, at any given time 3-4 vehicles are parked for the week (between street cleaning restrictions). More often than not, the vehicle inhabitants litter the street with bottles of excrement, food and packing scraps, and bathroom tissue. Besides the obvious lack of parking for property tax paying residents, renters, and visitors to businesses, it puts the vehicle dwelling individuals at risk. I beseech the city to reinstate LAMC 85.02. Thank you for your time.
