

## Communication from Public

**Name:** Dawn Sassoon

**Date Submitted:** 01/18/2020 12:41 AM

**Council File No:** 14-1057-S8

**Comments for Public Posting:** I'm writing to ask that you please reinstate LAMC 85.02 and continue the ban on car camping. Our streets are overrun with people living in vehicles that take up public parking, trash our streets, potentially defecate on our sidewalks and threaten the safety of our neighborhoods and homes. Not to mention the environmental impact of the trash and hazardous waste they put down the storm drains which flows right into our ocean. Please do what's right for the people who live here and pay rent/mortgage and taxes. We are already oversaturated with transients and we need laws that protect our streets and neighborhoods. This needs to remain permanent as well instead of having to renew it year after year. Sincerely, Dawn Sassoon
