Comments for Public Posting: I'm writing to ask that you please reinstate LAMC 85.02 and continue the ban on car camping. Our streets are overrun with people living in vehicles that take up public parking, trash our streets, potentially defecate on our sidewalks and threaten the safety of our neighborhoods and homes. Not to mention the environmental impact of the trash and hazardous waste they put down the storm drains which flows right into our ocean. Please do what's right for the people who live here and pay rent/mortgage and taxes. We are already oversaturated with transients and we need laws that protect our streets and neighborhoods. This needs to remain permanent as well instead of having to renew it year after year. I can't even begin to tell you how much stress this is causing me, and my family. Drug dealing was done right in front of my house. I fear for my 85 year old neighbor who is very friendly and has been taking advantage of, in more ways than one. I feel that we, the tax paying citizens are taking advantage of in this homeless situation and forgotten about. Is it right to punish the hard working citizens, many just getting by, who have worked all their adult lives to get what they have today, only to be taken away from them. I do not believe in awarding bad behavior. This is what is happening all around me, and continues daily in getting worse. I beg you to reinstate and make the no parking, camping in cars permanent. We have gotten an unfair deal in this horrific problem, and our councilman Mike Bonin ignores us. Thank You, MarthLennon
