We must exempt horse keeping properties from the proposed ordinance recommended

by CPC 2015-4474CA and ENV-2015-4475-CE on the basis that the Environmental impacts of the ordinance relative to horse keeping properties has not been adequately protected.

The communities in Council District 12 would be negatively impacted if the exemption for horse keeping properties isn't adhered to.

Your consideration in the matter is of the utmost concern to all constituents in CD 12.

I'm asking that you make horsekeeping properties exempt from the proposed ordinance recommended by CPC 2015-4474CA and ENV-2015-4475-CE. It's my belief that there are environmental impacts that may have been overlooked and need to be addressed. Please exempt horsekeeping properties or parcels when considering this ordinance.

Sincerely,

Fran Reichenbach, horse owner and advocate

We learned about this last night at the Los Angeles Equine Advisory committee meeting. If this ordinance passes and includes Equine keeping areas it opens the door to our neighbors back yard properties becoming AirBNB and similar uses which could infringe on our horse keeping property rights.

This ordinance was approved by the City Planning Commission on December 15, 2016 and has been completely slipped under the door for plum approval.
