SUMMARY

At the meeting held on March 26, 2019, your Economic Development Committee considered CLA reports relative to an EIFD establishment policy and PFA appointments. The CLA reports that State law authorizes local jurisdictions to form an EIFD to finance community revitalization and infrastructure projects, primarily through the use of tax increment financing in a defined geographic area. Prior to forming an EIFD, a local jurisdiction, alone or with other participating taxing entities, must form a PFA. More specifically, State law requires that the legislative body establish a PFA at the same time that it adopts a resolution of intention to form an EIFD.

The PFA, a separate legal entity, would be tasked with the actual formation of an EIFD project area and, among other duties, be responsible for the use of funds collected in the area, securing voter approval for any bond issuance, and maintaining long-term oversight over the EIFD. Staff from the CLA presented an overview of the matter and answered related questions concerning many aspects of the EIFD formation and governance. After an opportunity for public comment was held, the Committee moved to approve the CLA's recommendations as amended, as detailed above. This matter is now forwarded to the Council for its consideration.

Respectfully Submitted,
