I Regina Johnson have lived in this community and around this center since it was built and have participated with my grand children in several programs that are provided with this center. Including California Intensity check.

I have watched this community grow develop children and adults of all ages, with positive things to do. I've watch exercise, classes, tutoring etc. done in this center.

As a result, bringing very positive activities to a community that is very well going down. When the center came to this neighborhood, things changed for the best. I would hate to see this shut down due for non-funding. There's not many things that are positive here and this ~~was~~ was one place that could keep the community moving to a much better area to live and raise children.

With this said ~~we~~ I'm asking you not to shut it down TCI at the RDWC. We respectfully ask that you reinstate all funding for the upcoming program year.

Thank you very much!

Member since 2012, lived in neighborhood since 1963!

Dear Mayor,

By closing the program, ~~it~~ it may impact the people because this kind of program helps people by giving them a chance to change their anger another way. Some people may need to take anger management, because some social workers or may be children, court ask parents to take this kind of class to get their kids back. Not only for this program it may be for counseling, anger management class, tutoring. It may take the opportunities of kids to join some summer programs because they need this to think right because their a lot of gang members, drugs out there and this program may help kids and parents a lot. Teen ages need this program because some of them wants to start a job and health out this they would lot have the chance to help them to get this kind of help. It really would help a lot of people. Of this program will help people by making them a better person. What am trying to say is don't close this program this will impact on lot of people and kids.

Sincerely,

I live in the community around the center and have participated in the Black Diamonds Drill Team and Drum Squad for 3 years. TCC has provided these services in our community for the past 13 years.

This program has helped me to stay off the streets and out of trouble.

As a result of my participation my life has changed in many ways. I have made new friends. I am involved in more community activities now.

If TCC did not provide these services I could end up being home alone and not involved in community activities.

We are asking you not to shut down TCC at the RWUC. We respectfully ask that you reinstate all funding for the upcoming program year.

Thank you.

I live in the community around the center and have participated in rec and leisure program. TEC has provided these services in our community for the past 13 years. This program has helped me by letting our drill team practice here. As a result of our participation our life has changed because we are able to practice in one location. If TEC did not provide these services, the impact to me would be heartbreaking because I love coming here.

We ask you not to shutdown TEC at the QDILL. We respectfully ask that you reinstate all funding for the upcoming program year.

I live in the community around the Center and have participated for 4 years in the program.

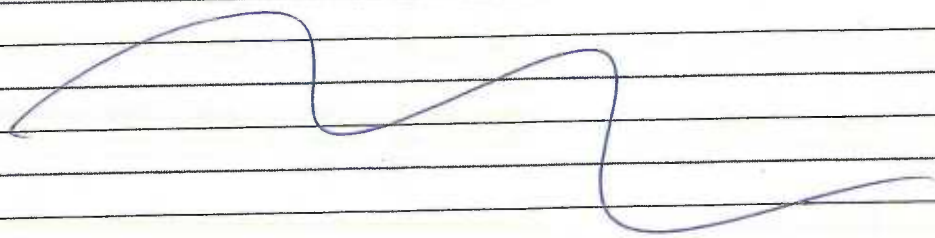

The program has helped my family to have an place indoor to participated in the different programs that the center offer. IN the after hour program we get a chance to be indoor especially in the winter + fall time. So we don't have to be outside, we can have a safe environment.

As a result of our participation our life has changed, and that gives them opportunities to be involved with other activities and meet other children their age.

If TCCJ didn't provide these services there will be no where to go safe, and nothing for them to get involved in, so please keep the center open for our children, we need the center

I live in the community room at the center and have participated in Black Diamond Drillteam & Drum school program. TCC has provided these services in our community for the past 13 years

The drill team has taught me so much about myself because of the love and family like environment, everything about it is just so open and fun. Practice & performances

As a result of our participation our life has changed ~~travels~~ for the better. I'm active now, not sitting on the house or somewhere committing crimes or gang banging

If TCC did not provide these services, the impact to me I would be one of those guys that just sit around the house not looking for a job living at

my name is Kinisha Scott and I live in the community around the Center and I participate in the Black Diamond Drill team program. TCC has provided these services in our community for the past 13 years. This program has helped my family stay active. Without this we would probably never exercise. It provides my daughter with an extra curricular activity that feeds her need to outwardly express herself, if TCC didn't have this she would not be able to. Due to our family's low-income status, this keeps children off the streets and focused on a safe competitive, but fun activity. As a result of our participation in the Black Diamond Drill team program at TCC, our life has not been the same. Me and my daughter's bond is stronger and it also brings her Dad around just to see her do her stuff. I'm healthier as a 28 year old female. I needed the exercise and freedom of creativity that my body and soul strives for. Bonding as a broken family would be tough, and I would not have the means to put my daughter in other programs if TCC shut down. So in saying that the program means a lot to me, so we ask that you please please, please do NOT shut down TCC at the BDLCC. We respectfully ask that you reinstate all funding for the upcoming program year. I will and has done wonders for families in this community.

Type of program: Drill Team & Drum Squad for apt 10 yrs or more. ~~participating~~ ~~Classed~~ with W.L.C.A.D for boys. After school program approx 4 yrs. Now working with L.A.U.D. to expand these program to help our children to develop and understand to be leaders in our community. To stay focus on different activities. Have good safe haven.

I have live in the community for 30 yrs or more. I have participated in Drill team / Drum Squad for 10 yrs. Drill Team / Drum Squad is good. Keep my child from running with gangs.

It has helped my child to look forward to the activity that the center has for her. Also it has helped me to participate with my child. Love to look forward to do Drill Team / Drum Squad.

Her lives has changed ^{something} ~~give me~~ to look ~~for~~ ^{for}. Also it's good my child is safe her. She's not in the street stop taking every thing from our children.

If TCCJ did not ~~provide~~ ^{provide} the space for my child it would be a disaster. That's why some children don't have place to. They end up with a lossing life. So please keep the center open for our children. It's very safe here and it is fenced in we have safety here. Parents look out for everyone.

Please reinstate so we can have a place to go when it's raining weather is bad.

This program (Gym) has helped me because it lets our establishment practice here. This is the only place where we can practice. This program has helped us by giving us extra time to practice when we needed to go over our step. This program needs to stay open because it helps people other than us. And others need that to get what they need like Parenting, Class, Anger Management, Employment Support, and After School, so we would love it to stay open.

I live in the community around the center and have participated in After School Program. TCC has provided these services in our community for the past 13 years. This program has helped me to staying out of trouble and having someone to go instead of ~~home~~ going straight home. It's a result of our participation our life has changed in a good way. Help out with were and other need that you have. If TCC did not provide these services, the impact to me would be not doing my homework, going places I shouldn't. Hello my name is Andrea Edwards, I am a parent of the Black Diamond drill team,

I live in the community around the center and have participated in Roc! Leisure program. TCC has provided these services in our community for the past 13 yrs.

This program has helped my family to allow my daughter to be in a safe environment and for my child to have structure in her life. As a result of our participation our life has changed in a lot of ways such as, get to know the individuals in our community. If TCC did not provide these services, the impact to my family would be disturbing due to the fact that the center provides a lot of services for the kids and parents without the center what activities would our community have. Dear Mayor Eric Garretti,

Hello my name is Tavita Fisher and I am a resident of Los Angeles, CA and also a client of The Children's Collective, Inc. at Rita Walters Learning Complex! I wanted to plead with you and The City Council Board not to shut The Children's Collective Inc. at Rita Walters Learning Complex down because this place has helped me enroll in Anger Management and Parenting classes which I have been court ordered to do. My kids were taken away from ^{me} six months ago and I've been fighting Childrer Services and children's Court to regain custody of my children again. Taking the funding away from this center will not help me get my children back if I don't get the opportunity to finish my required classes. This center has helped me with controlling my anger and becoming a better parent to my children. This center has also helped a lot of our inner city children stay out of trouble and provided them with a great learning environment.

So I ask of you to please keep this center open and running and don't let us and our children down with closing this center down for good.

Sincerely
Tavita Fisher

Type of program: Drill Team's Drum Squad for 4th 100th
in middle's participating classes with W.L.C.A. for boys. After
school programs after 4 yrs. Now working with L.A.U.S. program
that's program to help our children to develop and understand to
the world in our community. To stay focus on different activities.
Have great afterschool

I have live in the community for 30 yrs or more. I have participated
in Drill team / Drum Squad for 10 yrs. Drill Team / Drum
Squad in grade. Keep my child from running with gang
agreed in grade.

It has helped my child to look forward to the activities that
the center has for her. Also it has helped me to participate with
my child. Look forward to do Drill Team / Drum Squad.

My child has changed. She's not in the street stop taking every thing
from our children. Also it's good
to look forward to do Drill Team / Drum Squad.

If I did not provide the space for my child
it would be a disaster. That's why some children don't have
place to play and up with the classes like. So please keep the
center open for our children. It's very safe here and it is
fenced. We have safety here. Parents look out for everyone

Please remember we can have a place to go when
it's raining. Weather is bad.

I live in the community around the center and have participated in After School program. TCC has provided these services in our community for the past 13 years. This program helped me to work on my strengths and weaknesses. As a result of our participation our life has changed because I am staying out of trouble. Dear Mayor,

By closing the program. ~~it~~ it may impact the people because this kind of program helps people by giving them a chance to change their anger another way. Some people may need to take anger management, because some social workers or may be children, court asks parents to take this kind of class to get their kids back. Not only for this program it may be for counseling, anger management class, tutoring. It may take the opportunities of kids to join some summer programs because they need this to think right because their a lot of gang members, drugs, get their and this program may help kids and parents a lot. Teen anger, need this program because some job, them wants to start a job and wealth out this they would not have the chance to help them to get this kind of help, it really would help a lot of people. All of this programs will help people. Being making them a better person. What am trying to say is don't close this program this will impact a lot of people and kids.

Sincerely,

I LIVE IN THE COMMUNITY AROUND THE CENTER AND HAVE PARTICIPATED IN ANGER MANAGEMENT, PARENTING CLASSES, PROGRAMS. TCC HAS PROVIDED THESE SERVICES IN OUR COMMUNITY FOR THE PAST 13 YEARS.

THIS PROGRAM HAS HELPED ME AND MY FAMILY TO BE, ONE STEP CLOSER TO RE-UNITING, AND BEING ABLE TO LIVE TOGETHER ONCE AGAIN.

AS A RESULT OF OUR PARTICIPATION OUR LIFE HAS CHANGED, IN WAYS THAT HAVE BENEFITED US. OUR BOND AS A FAMILY HAS GROWN THANKS TO THE KNOWLEDGE I HAVE RECEIVED FROM MY CLASSES.

IF TCCI DID NOT PROVIDE SERVICES, THE IMPACT TO ME AND MY FAMILY WOULD BE DRAMATIC. WITHOUT THE SERVICES I WOULD HAVE NO WAY OF PAYING FOR THESE CLASSES AND THEREFORE ALSO HAVE NO HOPE OF REUNITING MY FAMILY.

WE ARE ASKING YOU NOT TO SHUT DOWN TCCI AT THE RDWLC. WE RESPECTFULLY ASK THAT YOU REINSTATE ALL FUNDING FOR THE UPCOMING PROGRAM YEAR.

I Live in the Community around the Center and HAVE PARTICIPATED in a few PROGRAMS. TCC HAS provided these services in our community for the past 13 years this program HAS helped me to understand things better in life not only that, but it is one of the first programs to be available during the morning everything else is Afternoon classes where my job interferes with

As a result of our participation our life HAS changed in a better we communicate, we work as a whole, we slow down to make sure everything and everyone is ALWAYS on the same page

If TCC did NOT provide these services, the impact to me and my family would be affected in certain ways I would struggle just to find certain services during the morning time something that HAS BEEN impossible to me something TCC and RDWLC provide very well.

We are asking you not to shut down TCC at the RDWLC we respectfully ASK that you RESTART ALL funding for the upcoming program year

This program has helped me and my family to achieve and solve anger in a non violent way. To talk not fight, to listen and be heard. As a result of our participation our life has change in a not getting provoked way, to be polite and treat everyone with respect. Also I learned anger is not a feeling that we can all get over. I live in the Community around the Center and have participated for 4 years in the program.

The program has helped my family to have a place indoor to participate in the different programs that the Center offer. IN the after hour program we get a chance to be indoor especially in the winter & fall time. So we don't have to be outside, we can have a safe environment.

As a result of our participation our life has changed, and that gives them opportunities to be involved with other activities and meet other children their age.

If TCCJ didn't provide these services there will be no where to go safe, and nothing for them to get involved in, so please keep the center open for our children, we need the center

"Do not shut us out"

Our Children Need The Center

I Regina Johnson have lived in this community and around this center since it was built and have participated with my grand children, in several programs that are provided with this center. Including California Intensity check.

I have watched this community grow develop children and adults of all ages, with positive things to do. I've watch exercise, classes, tutoring etc. done in this center.

As a result, bringing very positive activities to a community that is very well going down. When the center came to this neighborhood, things changed for the best. I would hate to see this shut down due for non-funding. There's not many things that are positive here and this ~~is~~ was one place that could keep the community moving to a much better, area to live and raise children.

With this said ~~we~~ I'm asking you not to shut it down till at the RWIC. We respectfully ask that you reinstate all funding for the upcoming program year.

R... ask for the program~~

Thank you.

I live in the Community around the Center and have participated in the Program tcc has provided these services in our Community for the past 13 years this program has helped me and my family to connect as a result of our participation our participation our life has changed because it is very ~~good~~ positive and keeps my son out of trouble. If tcc did not provide these services the impact to me my family would be devastated because this is a good program to keep kids out of trouble we are asking you not to shut down tcc at the RWJL we respectfully ask that you reinstate all funding for the upcoming program year.

① The program has helped me and my family to get here without ~~any~~ problems and no harms ~~was~~ with out anything bad happening. Result of our participation our life has changed as to keep things clean and respect people. It wouldn't be so good if we had to dance and were around in the cold. The impact of me and my family would be all good and stuff and we wouldn't wanna participate all day night ~~and~~ in the cold where we have to take a fare walk to go use the restrooms and drink water.

I lived in the community around
the center and have participated in
1 program. TCC has provided these
services in our community for the
past 13 years. This program has
helped me and my family
be more active in doing multiple
things than just staying at home.
Also to make new friends
and a fun place to be. As a
result of our participation our
life has changed for the better,
I keep more active. If TCC
did not provide these services
the impact to me and my
family would be not able
to be active in our community
or giving back. We are asking
you to not shut down TCC at
the RWLC. We respectfully ask
that you reinstate all funding
for the upcoming program year.

my name is Kinisha Scott and I live in the community around the Center and I participate in the Black Diamond Drill team program. TCC has provided these services in our community for the past 13 years. This program has helped my family stay active. Without this we would probably never exercise. It provides my daughter with an extra curricular activity that feeds her need to outwardly express herself, if TCC didn't have this she would not be able to. Due to our family's low-income status, this keeps children off the streets and focused on a safe competitive, but fun activity. As a result of our participation in the Black Diamond Drill team program at TCC, our life has not been the same. Me and my daughter's bond is stronger and it also brings her Dad around just to see her do her stuff. I'm healthier as a 28 year old female. I needed the exercise and freedom of creativity that my body and soul strives for. Bonding as a broken family would be tough, and I would not have the means to put my daughter in other programs if TCC shut down. So in saying that the program means a lot to me, so we ask that you please, please, please do NOT shut down TCC at the RWLC. We respectfully ask that you reinstate all funding for the upcoming program year. I will and has done wonders for families in this community.

I want the center open because this is like
our home. We need this because our drift
team don't deserve to be in the cold.
We deserve to be on the center, we
should be able to come here on
mondays and ~~wed~~ wensday without you
people trying to take it away from us.

Black Diamonds.

I live in the community around the Center and have participated in the after school program. TCC has provided these services in our community for the past 13 years. This program has helped me by teaching me new things everyday. And I have seen the state Nevada with the program. My life has changed because I got to experience new things and things that I didn't know about. If I was not in the program I would not be the smart and talented person that I am today. We are asking you not to shut down TCC and the BDKC. We respectfully ask that you reinstate all funding for the upcoming program year.

I lived in the community around the center for and have participated in 3 programs. Tcc has provided these services in our community for the past 13 years.

This program has helped me to practice my drillteam and to learn more and new things.

As a result of our participation our life has change because our drillteam block diamonds have practice in the cold in till Rita Waters provided us this place where we fill good practicing.

If Tcc did not provide these services, the impact to me to the cold and having to find places so practice almost every month.

We are asking you not to shut down Tcc at the RDWLC. We respectfully ask that you reinstate all funding for the upcoming program year.

I participated in after school program.
this program helped me and my family with
Drill team and saving the Center. Our
participation and our lives have been
changed. If ICCI to me and my family
will be ungrateful. We really are asking
you not to shut down ICCI please and
we are asking that you reinstate all
funding for the upcoming.

I am a senior in the Black Diamond Drillteam and Drum squad. I live in the community around the center and have participated in one program which is Black Diamonds. TCC has provided these services in our community for the past 13 years. This me and my family to have a positive attitude and to have a safe place to practice. As a result of our participation our life has changed because we are able to go to Las Vegas, feel comfortable while practicing and by also having somewhere close to practice at. If TCCI did not provide these services the impact on my family and I would be that we would have to go out our way and find somewhere else to practice. We are asking you not to shut down TCCI at the RDWLC. We respectfully ask that you reinstate all funding for the upcoming program year.

I live in this community around the Center and have participated in drill team programs. TCC has provided these services in our community for the last 13 years. This program has helped my family out in so many ways like keeping my children ~~out~~ out of gangs and out of trouble with out this center I don't know what I would do it helps the kids in the community with homework and other learning skills. As a result of our participation our life has changed in many many ways it teaches the kids how to be responsible and to take actions of the own classwork and homework it also give kids a place to go and ~~be~~ able to better their educational skills. If it wasn't for TCC I would have to drive clear cross country to find a great community that has all the qualities this center has the children look forward to going to the center every day. We are asking you not to shut ~~the~~ down TCC at RDWLC. We respectfully ask that you ~~restate~~ restate all funding for the upcoming program year.

This program helped my family learn team work.
I've learned how to work and win as a team.
Not because I would have nothing to do.

1. I live in the community around the center and have participated in drill team program. I have provided these services in our community for the past 13 years.

2. This program has helped me to: Practice drill team inside the center. We get to learn our steps.

3. As a result of our participation our life has changed. Because we can practice more and learn more.

4. We would only be practicing in the cold. Practicing in the cold would get us sick.

~~5.~~

I live in the community around the center and have participated in rec and leisure program. TCC has provided these services in our community for the past 13 years. This program has helped me by letting our drill team practice here. As a result of our participation our life has changed because we are able to practice in one location. If tcc did not provide these services, the impact to me would be heartbreaking because I love coming here.

We ask you not to shut down TCC at the R.D. Hall. We respectfully ask that you reinstate all funding for the upcoming program year.

I live in the community room at the center and have participated in Black Diamond Drill team & Drum squad program. TCC has provided these services in our community for the past 13 years.

The drill team has taught me so much about myself because of the love and family like environment, everything about it is just so open and fun. Practice & performances.

As a result of our participation our life has changed ~~travelling~~ for the better. I'm active now, not sitting on the house or somewhere committing crimes or gang banging.

If TCC did not provide these services, the impact to me I would be one of those guys that just sit around the house not looking for a job living at

~~THIS~~ I PORN TEAM WORK

I've learned how to work and
with my team. Last be cause I would
have nothing to do.

My name is Tarean Lavelle. I am currently a senior in high school. The center is my destination every Monday and Wednesday evening of the week. I am with an organization called the Black Diamonds. I have been with them since I was four. I am 17 now and on my way to college. This letter is like my second home. I look forward to being here every week doing what I love. I don't want to do not have any other place to go this is ~~my~~ our home. If this place is taken from us we would not have any where else to be. No one in need of this center.

I am apart The Black Diamond Drill Team and Drum Squad and has been apart of this organization for 15 years (since I was 14 years old)

We practice at Rita Watter's Center. It provides a safe space for our children and keeps them off the streets. Closing the center will put these young, troubled kids back on the streets.

The center has a big impact on our organization and we really need this place for our safety.

If you take away the RDWLC you are taking away our safety, peace of mind, and our home.

Thank You

I live in the community around the center and participated in drill team. ICC has provided these services in our community for the past 13 years. This program has helped my family be safe while doing an activity I like to do. As a result of our participation our life has changed because we don't have to worry about anything happening to me while practice. If ICC did not provide these services my family would be devastated because we would probably have to practice outside where it's not safe.

I live in the community around the center and have participated in a drill team program. This program has helped me ~~to~~ with myself - esteem and helped me build my social skills. As a result of our participation our life has changed by making us feel like an extended family and ~~our~~ are important around our community. If T&I ~~did~~ not provide these services the impact to me would be devastation and I would not feel like my normal self. I would be heart broken if I did not have the center.

This program has helped me and my family to
earn team work. As a result of our participation
I've learned how to work and win as a team.
If Fed did not provide these services the
to me and my family would be lost because I would
have nothing to do.

Kylan Stanley

I live in the community around the center and have participated in the Black Diamonds Drill Team and Drum Squad for 3 years. TCC has provided these services in our community for the past 13 years.

This program has helped me to stay off the streets and out of trouble.

As a result of my participation my life has changed in many ways.

I have made new friends. I am involved in more community activities now.

If TCC did not provide these services I could end up being home alone and not involved in community activities.

We are asking you not to shut down TCC at the RWLC. We respectfully ask that you reinstate all funding for the upcoming program year.

Thank you.

I live in the community around the center and have participated in the Black Diamonds Drill Team programs. ICC has provided services in our community for the 13 years.

This program has helped me (my family) to be comfortable in an environment that is safe and loving as the center.

As a result of our participation life has changed by my team being as a unity. ~~we~~ know that we understand the time and we are bettering our self and team.

If ICCI did not provide these services, the impact to me (my family) would be that my team and myself will need and have to find some where ~~else~~ else. That we will not feel at home. The center mean everything to us and we really thank you for everything.
