Dear Etta Armstrong, LA City Clerk Office,

While I support fair regulations for home sharing in Los Angeles, the draft ordinance goes too far. As a responsible host, I believe the following:

-- A 90 day cap is overly restrictive and arbitrary. If the City is trying to limit impacts on housing then the cap should be based on actual data. For example, a recent study found that a full unit would need to be rented on a short-term basis over 177 days in order to financially break even with its use as a long term rental.

-- I should have the flexibility to rent out a single bedroom, my entire home, or guest house on my property. My home is unique and being able to adjust my listing to my needs is one of the most important features of home sharing.

-- I don't feel comfortable knowing that information about how often and how much income I earn from home sharing could be available to anyone who asks. I want to comply with the law, but I need to be reassured that this personal information remains confidential or I won't feel comfortable sharing my home.

-- Any registration or permitting process needs to be simple, online, and efficient.

Please take these points into consideration when drafting laws that will affect me and my family.

Thank you

Sincerely,

Erin Buckley
