Hello,

My name is Kristin Morris. As a citizen/stakeholder and politically involved Angeleno, I disagree strongly with the removal of RSO unit protections from the Home Sharing Ordinance. Why was this done?

PLEASE add them back into the Ordinance Language, unless you can provide a thorough explanation that takes into account those in RSO units.

Thank you!

Sincerely,  
Kristin Morris

## Rso removal

Please do not remove rso from the ordinance. i live in a rent controlled unit. last year my landlord did air b and b on two units for one year. We had a constant flow of strangers every week along with less maintenance by the landlord and more pressure on the long term tenants to move out. section 8 is no longer excepted here. IF rso is removed you will make 22 people homeless because airbandb gave the landlords more money in a week than he earned in a month. it would be a no brainer for him to evict tenants.
