Hey !

Here is my input on the following items on the agenda:

Item 8 - File#14-1635-S2

Short term rentals aka Airbnbs

I think you should include rent controlled properties as well

I understand the want to regulate the raping of properties and the impact it has on the neighbors
However, Airbnb saved my life when i had an episode with my back and i couldnt work for almost
7 months. I think the ability to make a meager income whilst sharing your room or home with
someone is something we should not be limiting just because the property is rent controlled
