Dear Etta Armstrong, LA City Clerk Office,

I agree that entire properties should not be dedicated to short term rentals, but I urge you to consider removing the ninety day limit on a homeowner renting a room in her home. It smacks of government overreach when you start dictating who homeowners can welcome into their OWN HOME. I suggest my West Adams neighbor benefits from home sharing by bringing in tourists and their dollars, which can help local business.

William Judson

Sincerely,

William Judson
